## U.S. Won't Oppose Outside Backing for Rebels in Nicaragua

By Philip Taubman New York Tunes Service

WASHINGTON - The Reagan administration decided earlier this year that it would not discourage private U.S. citizens and foreign governments from supporting Nicaraguan rebels, the State Depart-

A department spokesman, John Hughes, said Monday that the deci- priation ran out. Both the Senate sion was made after Congress refused to approve additional fund-ing for the rebels, but he denied that the position was intended to circumvent Congress.

"Provided U.S. funds are not

used," Mr. Hughes said, "we do not discourage other countries from providing support, nor have we discouraged legal private U.S. contri-

Mr. Hughes's comments were not severed diplomatic relations the first acknowledgement by the administration that its response to Mr. Hughes declined to com-Mr. Hughes's comments were outside aid to the rebels was based on a high-level policy decision. Administration officials had said previously that the any failure to take action against private groups aiding the rebels was the result of a breakdown in coordination between federal agencies.

The private aid came to light after two private U.S. citizens were killed in Nicaragua on Sept. 1 when their helicopter was shot down in a rebel air raid against a military training school in Santa Clara, near the Honduran border.

The two Americans were members of an Alabama-based veterans' group, Civilian Military Assistance, that gave advice and military ministration has denied any conin the participation of the two men.

The involvement of the veterans' group, according to rebel leaders and administration officials, was courage the outside support, propart of an extensive effort by the vided the aid was handled in a legal insurgents to raise money and obtain supplies from private groups and foreign governments as official U.S. support diminished in recent

private corporations and individ- embassy agreed to help out as uals in the United States and from possible

foreign governments including Israel, Argentina, Venezuela, Guatemala and Taiwan, according to rebel leaders and administration officials.

Congress limited U.S. aid to the rebels to \$24 million in 1984 and stipulated that the government provide no other money, directly or indirectly, when the original approand House of Representatives have turned down administration re-quests for additional aid this year.

The Neutrality Act prohibits pri-vate support or participation in military expeditions against foreign governments that are at peace with the United States. Relations between the United States and Nicaragna have been strained in recent years, but the two countries have

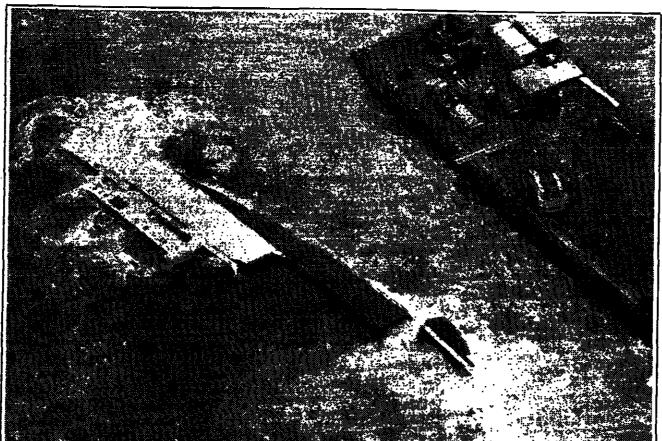

ment on the legality of Civilian Military Assistance's efforts. He said that the Justice Department and the Customs Service were investigating "various legal ramifica-tions" of the group's activities. The Federal Bureau of Investiga-

tion, according to Justice Department officials, notified the Alabama group in April that it was under investigation and might be violating the Neutrality Act. Mr. Hughes said that the admin-istration considered a variety of op-

tions to deal with the private and foreign aid to the rebels. "Obviously," he said, "there was consideration of options or alternatives in the government, but the decision equipment to the rebels and to El was taken not to play an active role Salvador's armed forces. The adin soliciting either private funding or third-country support, and the nection to the raid or involvement fact is the United States govern-in the participation of the two men ment has not done that."

He said the administration also rejected the option of trying to dis-

Mr. Hughes confirmed previous reports that the veterans' group first approached officials at the U.S. Embassy in El Salvador in The main rebel group, the Nica-October, offering to provide small amounts of military equipment to raised more than \$10 million from the Salvadoran Army. He said the

Waves wash over the French vessel Mont-Louis, which radioactive material aboard. Storms are breaking up the

sank off the Belgian coast Aug. 25 with 30 barrels of hulk and threatening to scatter the cargo on the seabed.

## Storm Halts Salvage, Threatens Radioactive Cargo

Sea storm prevented salvage workers Tuesday from determining whether 30 containers of radioactive material had been swept from the broken hull of a sunken freight-

On Monday, waves up to 18 feet (5.4 meters) high ripped open the hull of the Mont-Louis, which sank about 12 miles (19 kilometers) off the Belgian coast after colliding with a ferry on Aug. 25. The breaching of the hulk raised fears that the steel barrels of slightly radioactive uranium hexafluoride might have been washed from the hold.

A crisis committee of government and salvage company offi-cials, including Prime Minister Wilfried Martens, met Tuesday to assess what Belgium's environment secretary, Firmin Aerts, described as a "serious" situation.

huge waves crashing over the 4,210-OSTEND, Belgium - A North ton freighter. There was a large gap in the section of the ship still above the surface, they said. The ship lies in water that is 14 meters deep at low tide.

According to Henk Drenth of Smit Tak International, a Dutch salvage firm, the ship's hull has been torn apart at the point where salvage workers made an opening two weeks ago in an effort to retrieve the barrels. Mr. Aerts said that the storm had

split the ship into two parts. But Mr. Drenth said that the bow had ined attached to the wreck. Paul Gooris, who works for Bel-

gian salvage company, said that, if the freighter broke into pieces, the 30 containers could roll out of the hull onto the seabed. In that case, he added, retrieval would be diffi-John Huylebroeck of the Belgian

Public Affairs Ministry said that an Observers flying over the wreck empty container had been found Tuesday morning reported seeing on the shore Monday night. Alto-

gether, 13 empty barrels have been nature of the Mont-Louis's cargo, retrieved from the ship since the asserted that uranium hexafluoride first was found on Sept. 2. Officials have said that the con-

tainers of uranium hexafluoride are too heavy to rise to the surface, although they might roll along the If the uranium hexafluoride were to leak from the barrels, the offi-

cials said, the chemical would form an acid gas that would burn anyone who came in contact with it. The French Atomic Energy Commission said the containers, which are made of heavy steel,

could stand up to violent shocks and heavy pressure. Meanwhile, workers continued to spray detergents on an oil slick created by the rupturing of the ship's fuel tanks by the storm. Some of the oil has reached the shore but officials say they expect

little damage to result. Meanwhile, Greenpeace, an intion organization that disclosed the sea, salvage officials said.

### Possible Thaw In Kremlin MOSCOW - The Kremlin's agreement to hold talks between Foreign Minister Andrei A. Gro-

myko and President Ronald Reagan could mark the start of a thaw in Moscow's hard-line attitude toward the West, diplomats in Moscow said Tuesday.

Commenting on a report from the White House that a meeting between the two men had been set for Sept. 28, analysis at Western embassies here said it indicated a possible shift in Soviet thinking on East-West ties that could lead to major policy changes

"It suggests they have decided their closed-door policy towards Reagan is getting them nowhere and they want to get back into a

dialogue," one diplomat said.

A White House official said agreement was reached Monday night. On Tuesday, President Rea-

A Soviet Foreign Ministry However, on Monday, the Soviet first deputy foreign minister. Georgy M. Korniyenko said "I be-lieve there will be no difficulties on our part" in holding such talks.
Diplomats said it was most sig-

nificant that the Soviet leadership had agreed to the meeting despite the fact that it would almost cer-tainly help Mr. Reagan's re-election chances.

"Up to now the Soviets have been doing their best to discredit President Reagan. For them to agree to talks at this time indicates a change in foreign policy priori-

Some embassy analysts said the announcement reinforced their view that the dismissal last week of the Soviet chief of staff, Marshal Nikolai V. Ogarkov, had signaled a major upheaval in Kremlin policies and a victory for supporters of de-

They said Mr. Ogarkov, who had a reputation as a leading "hawk" on East-West relations, may have been viewed as a major obstacle to renewing arms reduction talks with the United States and reviving a dialogue on other issues.

His successor, Marshal Sergei F. Akhromeyev, is seen by Western military experts as a more moderate man and is believed to have (Continued on Page 2, Col. 2,

## U.S. Battles World as It Inches Toward Metric Standard

By Tom Vesey Washington Post Service

WASHINGTON - Until recently, the number John Bitango knew best was 3.785. The young Bethesda, Maryland, gas station operator had been dividing liter totals by that number, to turn them into gallons, since his station went metric five years ago. He thought that customers would learn the system.

Instead, they muttered "What the hell does this mean?" he said. Three weeks ago, Mr. Bitango put new mechanisms in his pumps and began measuring gas in gallons again. Like mechanics and other workers, Mr. Bitango is caught in a silent war against pounds and ounces, feet and inches, gallons and pints, and other conventional U.S. measurements. It is a war that pits the United States, Burma, and Brunei, a suitanate of about 200,000 people

on the coast of Borneo, against the rest of the world. The rest of the world is winning. The big U.S. anto companies, for instance, are quietly going metric because their overseas plants, suppliers and customers demand it. Mr. Bitango can measure his gas in gallons, but it is pumped into gas tanks that are calibrated in liters. "I've got metric everything," Mr. Bitango says. "Metric

wrenches, From a service station's point of view, you have to double your tools or you will lose."
A 1971 U.S. Department of Commerce study recommended that Congress legislate a 10-year transition period. But instead the Metric Conversion Act of 1975 declared that "the policy of the U.S. shall be to coordinate

socket wrenches, metric box wrenches, metric allen

and plan the increasing use of the metric system in the Thus, the transition became voluntary, unlike in Britain

and Canada, which mandated metric conversion. The result, in part, is that more than 95 percent of General Motors cars and parts are measured in the metric system, as are more than 50 percent of the parts in Chrysler and Ford cars. The U.S. wine and liquor industry

went completely metric by 1980 largely because it was

seeking new international markets. "Most people aren't measurement-sensitive," said Cheryl Cummins, vice president of the American National Metric Council in Bethesda, a private organization with 600 members, most of whom are large corporations.

The council sponsors committees and workshops covering more than 50 industries. It collects information on

metric transition and passes it on to industries. Economics may do what Congress chose not to do. Member nations of the European Community, for example, have said they will accept only metric imports after 1990, according to G.T. Underwood, director of the metric programming office of the Commerce Department. Nonmetric goods are becoming increasingly unwelcome in other countries, because it means they have to put

up with an oddball system," he said. Soft drinks are increasingly sold in half-liter, liter and two-liter bottles because companies anticipated that the United States would go metric and did not want to have to build new machines later.

being sold in metric sizes and that the U.S. computer won't hold it."

industry is increasingly metric, as are the electronics and lumber industries. Between 1978 and 1982, the percentage of hand tools sold in metric sizes increased from 10 to 25

Still, the language most U.S. consumers speak is feet and inches, pounds and ounces.

"I don't see anyone out there buying measuring cups in milliliters rather than the old cups, pints and quarts," says Carroll Brickenkamp, adviser to the National Conference on Weights and Measures. "I don't see anyone buying

Metric measurements that would touch U.S. citizens most directly - on road signs, thermometers and in shops will be the last to change, predicted George F. Carleton, a manager with the Procter & Gamble Co.

About 60 percent of supermarket goods display metric and conventional U.S. sizes, he said, but only 10 percent of these goods are measured in "hard" metric sizes, such as 500 grams. Most are simply translations of conventional measurements, such as 453.6 grams, which equals one

Mr. Bitango, fresh from his experience of selling gas metrically, said it will be some time before the public learns to love liters. "Maybe in three to four generations," he said.

Until then, he foresees he will be pouring oil from quartsized cans into metrically measured cars and finding that doesn't fit. wild new machines later.

"When you do an oil change," he said, "you have about three-quarters of a quart left over, sitting on the shelf. It

### After Months of Arduous Travel, Chinese Pilgrims Miss Mecca Plane

RAWALPINDL Pakistan — For 436 Chinese Moslems who missed their plane to Mecca, the lifelong dream of making the Haj pilgrimage to Islam's holiest place has been put back at least another

The pilgrims, all Turkish-speaking Uighurs from China's western province of Xinjiang, reached Rawalpindi after months of traveling including passage along the ancient Silk Route and over the Himala-Their journey began in May when they left for the provincial capital

of Urumqi for permission to leave, then to Beijing for Pakistani visas and back to Urumqi to pick up their passports. This trip alone took three months and and covered over 4,500 miles (7,200 kilometers). They arrived in Rawalpindi Aug. 30 only to hear from the Saudi Sept. 4 march to Mount Arafat. That is the traditional height of the hajj, the pilgrimage to Mecca every able-bodied Moslem is expected

to make at least once in a lifetime. Disappointed but determined, most of the pilgrims now plan to stay in two government-owned hotels in central Rawalpindi until next year when they can resume their journey to Sandi Arabia. None of the men accused Chinese, Pakistani or Sandi officials of delays that caused them to miss the plane.

A man who identified himself as Gruzen, a shookeeper in his 40s. said anyone in the group who went back to China now might never get permission to leave for Mecca again. "We sold everything to make this trip — our land, our property,' he said, shaking his head, already shaved according to hajj ritual. "We must go for hajj now."

### WORLD BRIEFS

### Skepticism Greets New Ulster Minister

LONDON (Reuters) - Britain's new troubleshooter for Northern Ireland. Douglas Hurd, went to the province Tuesday to take charge in the face of hostility, suspicion and skepticism from local politicians who voiced reservations that he would be able to heal sectarian divisions in the

The Reverend Ian Paisley, an influential Protestant leader, said he doubted that Mr. Hurd was tough enough for the job. Gerry Adams, a member of Parliament and head of Sinn Fein, considered the political arm of the outlawed Irish Republican Army, described Mr. Hurd as a political lightweight.

James Molyneaux, leader of the official Unionist Party, said politicians should be on guard to ensure that Mr. Hurd did not attempt to dilute the will of Prime Minister Margaret Thatcher to keep the province within Britain, Mrs. Thatcher chose him Monday to replace James Prior as the cabinet secretary for Northern Ireland.

### Soviet Defector Missing in Britain

LONDON (UPI) - Oleg Bitov, a prominent Soviet defector to the West, has been missing for nearly a month and may have returned to the Soviet Union, the Home Office said Tuesday.

Mr. Bitov, 51, former foreign cultural editor of the Soviet magazine Literaturnaya Gazeta, defected to Britain a year ago, protesting what he said was Soviet suppression of intellectuals and the shooting down of a South Korean airliner in September 1983. He was given political asylum. "His friends say he has not been seen since mid-August," a Home Office spokesman said, adding that "the possibility that he returned to the Soviet Union cannot be discounted, because of his well-known concern" for his wife and daughter, whom he left in the Soviet Union.

### 15 Killed in Sri Lanka Bus Attack

COLOMBO, Sri Lanka (Reuters) - Five gunmen killed 15 persons and wounded five Tuesday in a bus ambush in Sri Lanka's Northern province, where separatist guerrillas are active, police said.

They said the bus had 44 passengers, all members of the Tanil minority. Police said that they believed the gunmen were guerrillas fighting for a separate Tamil state and that they had killed the passenger

to put the blame on the army.

Nine soldiers were killed Monday by a land mine and six guerrilles died in the ensuing gunfight. A police source said troops in the area were warned Monday not to make reprisals against civilians.

### U.S. to Resettle 10,000 Vietnamese

WASHINGTON (AP) — The Reagan administration will seek the release of an estimated 10,000 Vietnameste political prisoners for resettlement in the United States in the next two years, the secretary of state,

George P. Shuitz told Congress on Tuesday.

Mr. Shultz also said the United States would admit all Asian-American children and their family members who qualify for admission, with the

aim of doing so in the next three years.

"Various spokesmen for the Communist regime in Vietnam have claimed they would be willing to release all of these political prisoners for resettlement." Mr. Shultz said. "But, despite two years of effort, the Vietnamese have released only a handful of these persecuted people. We tope the Vietnamese will now respond to these appeals."

### Ceausescu Seen Sticking to Bonn Visit

BUCHAREST (AP) — A Romanian Communist Party newspaper published an interview with a leading West German politician on Monday in an apparent signal that President Nicolae Ceausescu is likely to go ahead with a planned visit to Bonn even though his East German and Bulgarian colleagues have postponed their trips there indefinitely.

Mr. Ceausescu's state visit, scheduled Oct.15-19, was originally announced in the official media Aug. 28, but there has been little of no

official comment on it.

Wolfgang Mischnick, vice president of the Free Democratic Party is West Germany, said in the interview with Romania Libera that Ceausescu's visit was viewed as "necessary and important."

### U.S. to 'Improve' Salvadoran C-47s

WASHINGTON (AP) — The State Department said Tuesday that the Reagan administration was considering increasing the firepower of two C-47 cargo planes belonging to the Salvadoran armed forces to enable them to respond more quickly and effectively to large-scale guerilla

Alan D. Romberg, a State Department spokesman, indicated that the lans for improving the two Salvadoran planes meant that the administration had decided not to provide the country with Vietnam-style, high-

firepower AC-47 gunships. Reports that there were plans to sell El Salvador gunships had arousel congressional opposition. The AC-47 is a heavily armed version of the C

asserted that the planes also hit a smaller target in the second straight day of attacks on ships near Iran's main oil terminal. Lloyd's Intelligence of London said the tanker St. Tobias was hit by missile about 50 miles (80 kilometers) south of Kharg Island, Iran's principal oil terminal in the Gulf. Shippers said there were no casualties or fire aboard the supertanker, which was apparently struck by a Freach

Exocet sea-skimming missile.

The shippers also said the Liberian-registered vessel, managed by Fearnley and Eger of Osio, continued at full speed for Dubai, United Arab Emirates, for minor repairs. A dispatch carried by the official lind news agency and monitored in Abu Dhabi quoted an Iraqi military spokesman as saying that Iraqi planes struck a very large naval targer and another of medium size two minutes later. Iraq said all its planes

### South Africa Bans Protest Meetings

JOHANNESBURG (Reuters) — The South African government banned protest meetings on Tuesday following two weeks of riots is black townships in which about 40 people were killed.

Police headquarters in Pretoria said Louis Le Grange, the minister for law and order, had banned all indoor gatherings critical of the government.

ment in and around Johannesburg, Pretoria and other areas affected by

riots until the end of this month. The ban will cover meetings planned by black groups to mark the seventh anniversary Wednesday of the death in police custody of Stere

### Salvador Police to Be Reorganized

EL PARAISO, El Salvador (AP) — President José Napoleón Duarte has ordered the reorganization of El Salvador's three principal police forces, which human rights activists say are linked to rightist death

Mr. Duarte told a group of army officers during a visit Monday to a military base in El Paraiso that the reorganization of the National Police. the National Guard and the Treasury Police would help reduce rights abuses in the war against leftist rebels

The three forces, numbering 12,000 men, currently have overlapping responsibilities. Mr. Duarte said the National Police would be mined into an urban force, the National Guard into a rural force and the Treasur? Police would be combined with the tiny Customs Guard and renamed th National Patrimonial Police.

### For the Record

Figure authorities ordered 15,000 villagers Tuesday to leave the slope of the lava-spewing Mayon volcano at the southern edge of the man island of Luzon after it began erupting Monday.

Meeting

wanted.

To Democratic advisers and potrical scientists, the presidential candidate's blueprint for cutting the deficit by \$177 billion in 1989 is for what it does an important powerty measures and no substantive housing and welfare measures in the package, announced Monday.

The reality Walter Mondale laces now is we have huge budget deficits and we also have a lot of mans that liberals judged uccans that liberals judged uccans does and early made.

programs that liberals judged necessary in the 50s and 60s and early 70s, but which are now in place." said Thomas E. Mann, executive director of the American Political Science Association, a professional group of political scientists.

"So the so-called unfinished lib-

eral agenda is no longer unfinished," he said Tuesday. "And he said Tuesday. "And what you have are enormous bud-

get deficits.
"In the face of those conditions, any responsible politician who as-pires to national office must tailor his program, and that's what Mon-- dale has done."

'James A. Johnson, Mr. Mon-'dale's campaign chairman, said, 'These are radically changed circimstances based on the unprece-

Mr. Mondale pledged to cut two-thirds of a projected 1989 deficit of

"Mondale is a realist and a prag-matist and has always been," Mr. Johnson said. "He believes that the impact of these deficits on real peo- the other." ple and on our country's future are so substantial that in order to do what's necessary in terms of social justice, we must deal with the defi-cits first."

Although Mr. Mondale has pledged to restore, "in a prudent, selective way," \$30 billion in do-Mondale's announcement of a mestic programs in 1989, the bulk "bard, realistic" deficit-reduction of the money will be apportioned package of higher taxes, spending for education, environmental and cuts and a modest increase in social public works programs such as republic works programs such as re-building roads, and not for any

The candidate said Monday that a deficit-reduction trust fund would be established and "by law, every peany of new revenues will go into that fund, to be used only for reducing the deficit, not for new spending or new programs."

His advisers noted that Mr. Mondale's move rightward began in the late 1970s when, as vice president, he played a key role in the Carter administration's domestic policy. In the second half of his term. President Jimmy Carter favored domestic budget cuts and a tight monetary policy in a time of soaring prices.

Mr. Mondale, in his acceptance

speech July 19 before the Democratic National Convention in San Francisco, made it clear that his views, like those of many liberal Democrats, were in transition.

"After we lost, we didn't tell the American people that they were wrong," he told the convention. "Instead, we began asking what our "To those who voted for Mr.

Reagan," he added. "I know what you were saying."
Mr. Mondale's aides are sensitive to any notion that the candidate is not proposing to restore programs for the poor. They note that his proposed \$85 billion in higher taxes would fall heavily on

the upper middle class and the wealthy, as well as on corporations. "He's combining realism with a lifelong commitment to the people

■ Republicans See 'Disaster' David Hoffman and Milton Coleman of The Washington Post report-

Walter F. Mondale greeted crowds at a rally in front of a construction site in Philadelphia. With the candidate are Representative Thomas M. Foglietta, Democrat of Pennsylvania, left, and Mayor Wilson Goode of Philadelphia.

The Reagan administration has joined congressional Republicans in a coordinated attack on Mr.

ald Reagan for not doing the same. On Monday Mr. Reagan called the Mondale proposal "nothing new," saying "He told us several weeks ago he was going to raise the

people's taxes." Later Monday, Republicans primarily criticized the tax aspects of Mr. Mondale's plan, not the spending side.
The White House spokesman,

Larry Speakes, said that Mr. Mondale "would place a burden on the American taxpayer that would stop the economy cold in its tracks."

He said Mr. Mondale's plan would result in higher inflation and interest rates and would "put the Mondale's proposal as an "ecohighest taxes in peacetime history end T.J. Jemison, the president of on the backs of the American peothe National Baptist Convention on the backs of the Americans.

## Gandhi's Political Stock Plummets In Furor Over Ouster of Rama Rao

By William K. Stevens New York Times Service HYDERABAD, India - Just vhen Prime Minister Indira Gandhi's political stock seemed to be Punjab, the furor over the dismissal last month of N. T. Rama Rao as the elected leader of the southern state of Andhra Pradesh appears to have sent it plummeting again.

The situation, he said, has "turned

180 degrees. rising as a result of her bold action
In June against Sikh extremists in servers as well as politicians and Before Mr. R journalists say they believe that al, events seemed to be moving to-Mrs. Gandhi's parliamentary majority could be threatened in the

coming general election.
"This one incident is going to

"She has lost the advantage she cost a lot of votes," Professor Ahgained after Punjab," said Rashirmed said of the Andhra Pradesh uddin Ahmed, a political scientist.

"She could partly retrieve the situation if Rama Rao were reinstated. But nothing short of

Before Mr. Rama Rao's dismissward a relatively early general election, perhaps in November. Now, say some high-level politicians in Mrs. Gandhi's Congress-I Party, the election is likely to be held in

has evidently unified the opposi-tion as never before. He is a former film star who won an overwhelming personal and party victory against the Gandhi forces in a state election in January 1983.

"All the opposition parties are rallying around him," said an offi-cial in Mrs. Gandhi's cabinet. "So

far there has been no one to unite them, but this man will help in the process of opposition unity The Congress-I Party holds 39 of Andhra Pradesh's 42 seats in the lower house of Parliament, but

most of those seats are now expected to go over to the opposition in the general election, no matter how good a recovery Mrs. Gandhi

That, coupled with normal, anticipated slippage from Mrs. Gan-dh's overwhelming victory in the 1980 elections, will, "in the most charitable view," reduce her parliamentary majority to a thin margin, said G. K. Reddy, a journalist with close contacts in the Gandhi camp.

The overall Congress-I majority in the lower house of Parliamen stands at two-thirds, Mrs. Gandhi would not necessarily lose control of the government if her party lost that clear edge. The Congress-1 is commonly regarded as likely to emerge in any case with a plurality, thereby enabling Mrs. Gandhi to remain as prime minister at the head of a coalition government. She governed that way once before, from 1969 to 1971.

Nevertheless, Mrs. Gandhi's fortunes are seen as having deteriorated quickly and badly after the lift they seemed to get in June, when the prime minister sent the army nto Amritsar's Golden Temple in an attempt to crush a militant Sikh movement that had brought Puniab state virtually to its knees.

Although as many as 1,000 peo-ple died in the bartle at the Sikh holy temple, the boldness of the act image as a strong, decisive leader. It also seemed to win her much favor among all but the Sikhs, many of whom were gravely of-fended by the temple raid.

dhi appointee as governor of An-

dhra Pradesh, dismissed Mr. Rama Rao as chief minister, asserting that he had lost his majority in the state assembly. The dismissal touched off nationwide protests and at least 27 people died in ensu-ing riots in Andhra Pradesh.

Before the Rama Rao dismissal Gandhi forces had engineered the downfall of elected state gov-ernments in Sikkim and in Jammu and Kashmir. They tried to do the same thing late last year in the southern state of Karnataka, adjacent to Andhra Pradesh. But that attempt failed after it was disclosed that legislators had been bribed to switch allegiance.

The "toppling" maneuvers, as they are called here, were apparently designed to assert the Gandhi party's hold on state political machinery and state patronage in the general election campaign. Whoever holds governmental power in rural areas, where most of the votes are, has usually wielded great influence over voters in the villages.

### ■ 7 Killed in Hyderabad

Seven persons were reported killed and at least 30 wounded in Hindu-Moslem clashes in Hyderabad Tuesday in renewed cor nal violence. Reuters reported. A Home Ministry spokesman

said that paramilitary reinforce ments had been sent to Hyderabad Tuesday night from neighboring states to reinforce several thousand soldiers and paramilitary troops already in the city.

Police said the violence began

when a 48-hour curfew on the city of three million people was briefly lifted to allow residents to buy

They said the death toll since the communal clashes began Sunday during a Hindu religious festival seemed to restore Mrs. Gandhi's had risen to at least 18 dead and nearly 150 injured.

### Egypt Cool To Criticism At Area Talks

VALLETTA, Malta - Egypt was critical of a final commu issued Tuesday by nonaligned Mediterranean countries that assailed both the 1978 Camp David peace accords between Egypt and israel and alleged U.S. "provoca-

tions" off Libya. A senior Egyptian delegate said his country did not accept the criticism, sponsored by Syria and approved after long debate. Nine Mediterranean countries — Malta. Cyprus, Yugoslavia, Algeria, Tunisia, Morocco and Libya, in addition to Syria and Egypt — and the Palestine Liberation Organization

attended the two-day meeting. [Egypt signed the document en the section referring to the Camp David accords was relegated to foomote status, United Press International reported.]

Syria's motion said the ministers "highly appreciated" Lebanon's cancellation of its 1983 peace treaty with Israel and "condemned all similar agreements conducive to partial or separate solutions to the Middle East crisis."

In another clause, which anpeared to signal a victory for hardline Arab states, the ministers "expressed profound concern at the many provocations by the U.S. which violate [Libyan] sovereignty and territorial integrity.

Libya's foreign minister, Ali Abdel-Salem al-Turciki, said in a speech Monday that U.S. warships were carrying out maneuvers off Libya, but did not say exactly where, "The continuation of American aggression ... represents a dangerous threat to the indepen-

dence of Libya," he asserted. The communique called for a mi-clear-free Middle East but made no mention of any specific country's nuclear weapons.

It also deplored the "continuous escalation of great-power military presence in the Mediterranean and said naval movements "which directly or indirectly threaten the interest of nonaligned Mediterranean members' should be stopped.

In another, a left-center coalition with the Soasks a comrade: "And what about sign of giving it a new opening, socialism?" "Sorry," the comrade "They're stuck again," the diplo-replies. "We couldn't find a spon-mat said. "And there's going to be prize." sor. How about a sausage?"

The Italian Communist Party savers this image of undoctrinaire
eclecticism, which has brought it to
an important point in its history.
Last June, the party's longtime
lender, Enrico Berlingner, died and

set off a wave of national mourning portant questions to all the major during which even his old adversaries praised his honesty and intelli-

In the elections for the European Parliament six days after Mr. Ber-linguer's death, the Communists achieved a breakthrough they had been struggling toward for 40 years: They outpolled the dominant Christian Democrats by rope. three-tenths of 1 percent, making them for the moment the No. 1 party in Italy.

The victory brought a new word into the Communist lexicon, "il sorpasso," literally the overtaking,

This summer, after a long internal consultation among party lead-City Ballet: This is the stuff of bailed as a step toward internal Italian communism, at least as represented by the Festa de l'Unità, an andro Natta as its new leader. But after its summer of triumph, set up booths. But across the fair- the party has gone back to facing ground, with its 20 restaurants, 15 some of the same quandaries it confronted when Mr. Berlinguer was alive. Communist leaders realize that the European elections may prove to be a fluke, a victory in balloting that conferred no real

In fact, one Western diplomat said, echoing the views of other Two cartoons in last Wednes- commentators here, the Commuday's editions of La Repubblica mists are no closer than before to captured the tone. In one of them, a figuring out a strategy that would young man surrounded by signs for cialists. Neither tack worked and Fiat, Olivetti and Fiorucci salami the party's opponents show little

no moving aside by the other par-

political forces in the country." At the same time, the Comminists are maintaining their policy of distance from the Soviet Union. Although the party opposes the deployment of American cruise missiles in Sicily, they have not pursued the issue with as much vigor as arms protesters elsewhere in Eu-

A striking illustration of the relatively moderate tone of the party's criticism of President Ronald Reagan's foreign policy came in L'Unità, the party paper.

On its front page, the paper car-ried a translation of an article writ-ten by W. Averell Harriman, Clark M. Clifford and Marshall D. Shulman, three former top American officials. While their article was a sharp critique in the context of U.S. politics, it was far from the European leftist style. And the party freely reprinted the article's criticisms of the Soviet Union.

Thus do the Italian Communists keep trying to look Social Demo-cratic while claiming allegiance to a revolutionary past: red flags flying over microcomputers. Mr. Occhetto laughed off the contradictions. "It's the joke of the dialectic," he said.

At the festa, the local party section from Magliana, a suburb of Rome, seemed to succeed best at putting all these elements together. The section's fund-raising gimmick was an electronic peace game that took the form of a giant map of the world. For 60 cents, a contestant could get to flip a switch that lighted up one small square. Some of the squares were empty, others contained weapons of war.

"You're trying to knock out mis-siles," explained Daniella Archivio,

And Giulio Sordoni, another party member, added: "We've di-vided the missiles equally all over the world. Not just America."

The party, he insisted, took a fair-minded view of the land of

## Nakasone Faces Challenge by Leader Of Faction in Japanese Ruling Party

By Sam Jameson
Los Angeles Times Sernce

TOKYO - Kiichi Miyazawa, a leading policy-maker of Japan's ruling Liberal Democratic Party. declared Monday that he would probably challenge Prime Minister Yasuhiro Nakasone in voting in No ember for party president, a post that carries with it the pre-

Mr. Miyazawa, a bureaucratturned-politician who has served in a variety of cabinet posts, said that his faction of the ruling party, led by former Prime Minister Zenko challenge. And he added that the to lay the groundwork for a strondiscussion centered on whether to ger campaign in two years, seek the party presidency through If Mr. Miyazawa makes a formal seek the party presidency through negotiations or through a party

There can be no meaning to [negotiations] without a candidacy," he said, adding, "I think our faction members are carrying on their debate with [my] candidacy as a pre-condition."

Mr. Miyazawa's statement, made at a news conference at Taka-matsu on Shikoku Island, was the first open challenge to Mr. Naka-sone's hopes of obtaining a second two-year term.
At the same time, Kakuei Tana-

ka, a former prime minister, declared in two meetings of his party faction, the largest within the ruling Liberal Democrats, that his 118 followers in the Diet or parliament would not offer a candidate. He indicated that they would support

Mr. Nakasone for a second term.
It was the first time that Mr.
Tanaka has said without qualification that his faction would not field its own candidate.

Although he did not mention

Mr. Nakasone by name, Mr. Tanaka's remarks were taken as tantamount to an endorsement of the incumbent prime minister, who was elected two years ago primarily through Mr. Tanaka's support. Mr. Tanaka remains the undis-

ty in spite of his conviction on People's Army members.

Corp. during his 1972-74 term as prime minister.

A Miyazawa candidacy would two years ago but, with Mr. Tana-ka's 118 followers and his own 56, Mr. Nakasone would be assured of the support of at least 44 percent of the Liberal Democrats in parlia-

the party presidency, might feel Suzuki, is now discussing such a that he had to make the effort now

bid, Foreign Minister Shintaro Abe s also expected to run against Mr. Nakasone. Candidates are sched-

### 23 Die in Attacks By Guerrillas in Philippine Areas

MANILA — A total of 23 peo-ple were reported killed in guerrilla attacks in the central and southern Philippines on Monday.

A military spokesman in Manila said that II people, including five policemen and three militiamen, were killed in an ambush near Kidapawan, in central Mindanao Two of the 60 attackers, believed to be members of the communist New People's Army, also died.

At least eight people were reported to have been killed when susperted guerrillas of the secessionist Moro National Liberation Front raided a house in Lanao del Sur province, in northwest Mindanao, the Philippines news agency said. In Negros Occidental province in the central Philippines, a soldier and two civilians were killed in sepputed king-maker of the ruling par- arate ambushes by suspected New

charges of accepting a \$1.8-million uled to declare themselves on Oct. bribe from the Lockheed Aircraft 29.

The party's 392 members in both houses of parliament will vote it late November to elect their presideprive Mr. Nakasone of the back- dent. However, an election could ing he got from the Suzuki faction be avoided if a consensus were to be reached through discussions.

Mr. Nakasone's general performance in foreign affairs and, especially, his close personal relationship with President Ronald ment who vote for party president. Reagan, are highly rated here and Political observers said that Mr. abroad. However, his image in do-Miyazawa, who has never run for mestic affairs has been tarnished by his reliance on Mr. Tanaka for backing within the ruling party.

The lake and the Alps. Conventions, business and conferences. art, culture, shopping and excursions.

## **Beyond Exchange Rates**

the Board of Governors of the International Monetary Fund and its sister institution, the World Bank. It was the IMF that inaugurated the fixed exchange-rate system after World War II and presided over the switch to floating rates 30 years later. The contrast between prosperity during the fixed system and the troubles that succeeded it tempts IMF watchers to ask whether the floating system works. One might as well ask whether a spade works.

The fixed-rate system broke down because it was abused; in particular, a provision for refixing obviously aberrant rates was left out in the rain and it rusted up.

The floating-rate system has been criticized because of vast swings in the values of currencies. Undeniably, when a currency's international value starts changing because of divergent trends in prices and demand, inventions and innovation, the process overshoots and we move temporarily from one wrong pattern of exchange rates to another.

But it is not clear that the volatility of rates under the floating-rate system has harmed the world more than the abuse of the fixed-rate system did before it was abandoned. Even the IMF staff finds no convincing evidence that world trade and investment have suffered from this cause.

An exchange rate is a price. In market economies the amounts of money needed to buy wheat, automobiles or cotton shirts have to move up or down, in relation to each other, to bring supply and demand into balance - to clear the market, in the technical jargon. Is it more harmful when the number of French francs needed to buy an American dollar moves?

The question may seem strange to those who have witnessed the disturbing economic effects of the price of oil moving from \$2 to \$30 a barrel, or the price of a dollar rising from less than four French francs to more

A more intriguing question is posed by the

some private aid has flowed.

toward introducing American forces.

September brings the annual meeting of than nine. Recent large exchange-rate movements have certainly strengthened pressure for protection in America. But just as the oil price rise told us something important -the dangerous extent to which we depended on a depletable source of energy in the Gulf -so the exchange rate tells us something significant about how America and France, for example, have been running their economies, and it underlines the need for corrections. In both cases, reasonable stability of the prices in question can be achieved only if individual governments adopt reasonable economic policies designed in the light of

what is happening in the outside world.

Opponents of floating rates have to ask themselves whether the wounds of exchange-rate volatility are worse than those that France and Britain inflicted on themselves under the old system, when they delayed devaluations that were inevitable; or the wounds that occurred when U.S. devaluation was at first resisted and then kept

below what was necessary.

It seems fundamentally unlikely that a fixed-rate system could, of itself, have restrained the currency swings of recent years. Markets judge the relative values of currencies in the light of relative national developments and the policies underlying them. When markets decide that governments have got it wrong, no amount of exchange market intervention by the authorities or monkeying about with exchange controls is likely to recreate stability. In a free market. nothing slips across frontiers faster, out of government control, than a billion dollars.

For more stable exchange rates, governments have to think about better international coordination of their general economic policies, rather than about tinkering with the system. This is what needs discussing when the IMF Board of Governors con-

venes on Sept. 24 in Washington. INTERNATIONAL HERALD TRIBUNE

## Pinochet as the Emperor of Chile: Less an Augustus Than a Caligula

By Ariel Dorfman

B ETHESDA, Maryland — For 11 years, each time I have turned on the radio, it has been with the hope that the next bulletin would report that Chile's ruler, General Augusto Pinochet, has been overthrown.

Ever since he led a bloody coup against the elected socialist president, Salvador Allende, on Sept. 11, 1973, I have waited in each of my many exile homes for that dispatch from Santiago. Instead, the radio insists on bringing other news: of torture and international bank loans, of people abducted in the night, of fraudulent plebiscites, of concentration camps.

At each of the general's crises, I have told myself: This time he will have to go. But he has outlasted all predictions.

Last year, it seemed as if my prophecies were finally being shared by most Chileans. General Pinochet's much-vaunted economic miracle had turned into the mirage that, to many, it had always been — with one-third of the labor force jobless, thousands of bankruptaies, the highest foreign debt per capita in Latin America and a record 14-percent drop in the gross national product. Millions of people, banging pots and pans, were demanding his resignation. Reports of his personal corruption began to surface in a press that could no longer be muzzled. His days

were numbered, or so it appeared.
Yet, he has survived. Many critics who a year ago believed he was doomed now expect that he may misrule Chile until the end of the millennium. Apparently sharing that perception, the general recently went so far as to publicly compare himself to a Roman emperor.

How to get rid of a two-bit emperor? The answer of most Chileans has been, until now,

fundamentally nonviolent. It is true that some fringe groups on the extreme left advocate armed struggle, and also true that the strong Communist Party, which for 60 years had sustained the

idea that socialism could be reached without use of force, has proclaimed the right of public insurrection. But the Communists have not engaged in any significant acts of armed resistance.

They are held back, I believe, not only by the intuition that such a course might prove suicidal but also by the hope of most people, their own militants included, that change can come about without a long civil war such as El Salvador's.

The typical attitude is that of hundreds of thousands who the other day stopped at noon to sing "Thanks to Life," a song by Latin America's greatest folk artist, the Chilean Violeta Parra. This is the Chileans answer: Despite having been raped, we do not want to reply with more

If there is any Latin American country where active nonviolence has deep roots, it is Chile.
Then why is there no more international support for this movement? The United States keeps port for this movement? The Other States recep-condemning terrorism, keeps stating that people should not resort to aggression to solve their problems. But what vigorous steps has the Rea-gan administration taken to help the Chileans rid

themselves of oppression and injustice through peaceful means There is still a chance that my long wait by the radio will not prove futile. Augusto Pinochet remains in power only because he confronts a divided opposition and is supported by a united army. If the situation were reversed, he might find that the emperor he incarnates is not his namesake Augustus Caesar, as he must believe but Augustus's great-grandson Caligula, who was eliminated by his praetorian guard.

If there is not a change soon, many Chileans, especially those who live in the most extreme

e American colonies. If that happened, the U.S. State Department, you can be sure, would issue a strident statement deploring the rebels' violence and calling on them to use less warlike means to achieve their ends. A more practical approach, beginning this minute, would be to prod General Pinochet into abdicating by reprod General Pinochet into abdicating by re-soundingly deploring the real violence he exer-cises on a people who may be defenseless but who are not endowed with infinite patience. And by applying pressure. Otherwise, another El Sal-vador may be in the making.

The contributor, a writer whose latest book is "Widows," a novel, wrote this comment for The New York Times.

## The Sacred and the Secular

## In America, an Ironic Contrast to the Kennedy Pledge

The Deaths in Nicaragua N EW YORK — It all sounds distractingly familiar. A spokesman for the religious right declaring that his followers will "determine who gets elected" president. The revelation at the Re-publican National Convention that God is spelled in ways that do not violate U.S. law. One thinks of Americans who fought in Spain's civil war in the 1930s, with Britain before the G.O.P. A letter from a Republican senator to fundamentalist ministers that focused on only one United States entered World War II, with issue - not peace, mercy or justice, but whether a Israel in its several wars. The Neutrality Act candidate is so beholden to one religious group that he would use his influence as president to exalt constrains what American citizens can do on that group and its public policy positions above all others. It sounds like 1960 all over again. home soil, and has been invoked against Civilian Military Assistance for some of its stateside activities. But the two who died were in Nicaragua. In fighting the Sandinists, more-

In 1960, these religious right leaders were vocif-erously opposing the election of John F. Kennedy, over, they were doing only what the U.S. government has done through its aid to Nicaaccusing him, as a Roman Catholic, of inherently lacking the independence necessary to separate his official policies from his church's precepts. In 1984, they are vociferously supporting the re-elec-tion of Ronald Reagan because he has for four raguan insurgents. The principal objection to them —as to the U.S. government — is political. not legal. We have argued against American sponsorship of those insurgents since the years consistently used the Oval Office to advance their religious and governmental views. Twenty-four years ago Tuesday, in an address to

secret war" became known. Should there be a law? Earlier this year the the Protestant clergy of Houston, Mr. Kennedy Reagan administration proposed to make it a replied to his accusers. He proclaimed his procrime to aid foreign groups designated by the secretary of state as "terrorist." We thought it found opposition to any attempt to distort the was a bad bill, putting excessive discretion into idency "by i ient of any one religious group." He declared his strong support executive hands and unduly limiting the rights of citizens. In this case, this administration presumably would not have proscribed a group dedicated to its policy goals, but another administration might have. Better, we think, to leave citizens free to make their own choices

By Theodore C. Sorensen

holding public office nor imposed by his office upon the public. How ironic that the same pious preachers who extracted these pledges from John F. Kennedy now embrace Ronald Reagan for violating every one of them. How ironic that a president who campaigned on the need to limit government's role has so entangled it in matters once reserved for the

individual conscience and family. Mr. Kennedy, in his Houston address and later in the White House, also responded to more specific questions on church-state relations - whether he would send an ambassador to the Vatican, support financial aid for parochial schools, repudiate the Supreme Court decision on school prayer, reduce foreign aid because of the recipient's population-control practices, or "subvert the First Amendment's guarantees of religious freedom." He rejected all of these positions. President

Reagan has adopted every one of them. Mr. Reagan correctly asserts that religious and moral values are relevant to any consideration of iblic issues. It is, moreover, his right to seek votes from any religious group, and the right of any for an America "where no religious body seeks to clergyman, the Reverend Jerry Falwell as much as impose its will directly or indirectly upon the general populace or the public acts of its officials," the Reverend Jesse Jackson, to participate in political and public policy debates. But when the presian America where the president's religious views dent and his supporters use religion as a sword to sel to President John F. Kennedy. He are his own private concerns, neither a test for undercut his political opponents and a shield for this comment to The New York Times.

his policy views, when he damns those who disagree as "intolerant" or against religion, when he uses the White House to impose a particular religious group's values on national affairs, he is eroding the basic principles that the nation adopted in 1791 and effectively strengthened in 1960.

After the divisive and destructive religious rancor of the 1960 campaign most Americans devout-ly hoped that Mr. Kennedy's Houston speech, election and conduct of the presidency had settled "the religious issue," that no president and no religious majority — even a self-anointed Moral Majority — would thereafter dare to challenge or attempt to coerce anyone else's religious or political standing. Mr. Reagan, in dashing those hopes, has opened a Pandora's box, releasing into the atmosphere dark elements of bigotry, disunity, incivility, hatred — everything but hope.

What can be done about it? When Mr. Kennedy was asked in 1963 about the potentially adverse effects of the Supreme Court's decision barring state organized prayers in public schools, he re-plied: "We have a very easy remedy.... Pray a

good deal more at home."

To restore the crumbling wall between church and state, that s is made more effective if exercised with another basic remedy: the right to vote.

The writer, a New York lawyer, was special coun-sel to President John F. Kennedy. He contributed

cred Congregation for the Doctrine of the Faith. All this not only gave new prominence to what was a somewhat intramural debate, but also -- contrary to some interpretations — showed a cautiously favorable stance by the Vatican hierarchy toward further development of liberation doctrines.

What is at stake, according to church progressives, is the relevance of the church to basic social, economic and political conflicts that have taken on revolutionary form in many Latin American countries. But for church conservatives what is also at stake is the unity of the church under a hierarchy based on the authority of the pope in Rome.

As Father Boff and other theoreticians of liberation theology see it, the church stands at a crossroads in the Third World. The choice for the church, in their view, is between identifying itself with the status quo or throwing itself as an institution into support and guidance for revolutionary changes in societies characterized by extremes of wealth and poverty. But the option introduces great

tensions in the societies and in rela-

tions within the church. The most concrete expressions of liberation movements within the church are the so-called base communities that have developed, with the encouragement of progressive bishops, clergy and religious orders, in the poor rural and urban slum sectors of Brazil and other Latin American countries. These "reflection groups," made up of peasants, workers, housewives and others, discuss the gospel and church teachings in the light of these people's daily lives. Unemployment, poverty, repression and alienation from the centers of power are current coin for parish priests and

As Father Boff wrote in "Faith on the Periphery of the World," the challenge facing the church is as much political as doctrinal: "Either the church maintains relations with the state in a form of

collaboration that means accepting

laymen involved in the movement.

By Juan de Onis

the present rules of the game in return for personal security and institu-tional religious and welfare services, or it takes seriously the experiences of the base communities and the pas-sions of the people, lending its voice and its social weight to promote sub-The church adopted the concept of

a "preference for the poor" at conferences of bishops at Medellin, Colombia, in 1968, and at Puebla, Mexico, in 1979. These conferences tried to apply the decisions of Vatican Council II and the major social encyclicals of Pope Paul VI to Latin realities. The evolution of the theology of

liberation in this region, beginning with the Reverend Gustavo Gutiérrez of Peru, paralleled this aggiornamen-to, or coming to terms with realities.

In extreme cases, radical Roman Catholics emerged who sought to pic-ture a Christ returning to Latin America today as a guerrilla fighter. Some priests in Central America and

Colombia joined guerrilla forces.

But the mainstream of the liberation movement is less flamboyant, and its best thinkers pose an evolved theological body of thought that goes to the heart of Roman Catholic belief and church government.

The theology of liberation deals in social and political realities. It has identified the concept of sin with social injustice, which it attributes to the capitalist system, liberal "individ-ualism" and the dependency of Third World countries on "imperialism."

ty of temporal thought between the liberation movement and the Marxists is what the Vatican has condemned - but last week's instruction notably does not condemn the movement for seeking social changes that will favor the poor.

"The main thing for me is that the Vatican does not place itself against the base communities," Father Boff said before appearing in Rome.

## A U.S. Debt To These Vietnamese

By Stanley Karnow

WASHINGTON — The Reagan administration could perform an important humanitarian service by granting asylum in the United States to the thousands of Vietnamese who have been held in concentration camps in Vietnam since Saigon fell to the Communists.

Administration officials have been discussing the issue with congressional leaders, and a decision is near, Vietnamese leaders in Hanoi have said repeatedly that they would release the prisoners on condition that they be moved to the United States. But it remains to be seen whether

they will stick to their pledge, One reason to be skeptical is that they have consistently rejected requests by the International Red Cross to visit the camps, which are called "re-education" centers, Refugee specialists have no lists of the inmates, who are estimated to number between 6,000 and 15,000.

But it is up to the United States to test the sincerity of the Communists, largely for the sake of the prisoners and also because their plight is, to a shocking extent, the result of official

U.S. bungling.
It was plain during the early spring
of 1975 that the anti-Communist government of South Vietnam was doomed. North Vietnamese forces were rolling toward Saigon, and South Vietnam's president, Nguyen Van Thieu, was committing blunder after blunder as he tried to organize his defenses.

Still worse was the conduct of Graham Martin, the U.S. ambassador. He refused to believe that the end was close, and rebuffed recommendations to initiate evacuation plans.

The Americans in Saigon escaped at the final hour, lifted by helicopters to aircraft carriers lving offshore. But thousands of South Victnamese who had worked for the U.S. Mission were left behind. Some had held sensitive intelligence jobs; many did not.

A few American officials performed daring feats to rescue the Vietnamese most in jeopardy. But most of the local employees were abandoned to the Communists, who dealt with them harshly.

Those who have managed to come out of the "re-education" centers have told stories of being beaten, tortured or denied adequate food. Their sufferings have been documented by

Amnesty International.
When I was in Vietnam a few years ago, I learned that the pervasive repression extended to anyone even re-motely suspected of having reserva-

tions about the Communist regime. Even a prominent Communist with whom I dined one evening deplored the severity of the crackdown. The regime, she said, was squandering talented people by jailing them

for such ludicrous reasons as having attended school in America Should the United States open its doors to these prisoners, much of the credit for the breakthrough should go to those who have been lobbying for more liberal policies. They include Representative Stephen Solarz of New York and Roger Winter, head of

the U.S. Committee for Refugees. State Department experts have been active as well in persuading Secretary of State George Shultz to support a more flexible approach.

The Vietnamese Communists are eager to improve their relations with the United States, to a large degree in the hope of maneuvering with China,

their principal enemy. Even if the political prisoners in Vietnam are granted haven, the prob-lem will be far from resolved. Thousands of Vietnamese, Cambodians and Laotians are languishing in refu-gee camps in Thailand and elsewhere. and thousands more still pour in

from Cambodia. The United States has already taken en some 700,000 refugees from Indo-china since 1975. Most have proved to be enterprising residents, and I would submit that more of them ought to be taken.

This terrible situation once again demonstrates that the Vietnam War is not finished and is not likely to be soon, for the Vietnamese or for the-

### That Dallas Platform Isn't Harmless

WASHINGTON — The Republican Party platform has been described as a very conservative document and dismissed as a piece of paper that no White House incumbent, including Ronald Reagan, would follow in office. But this blase attitude betrays an ignorance of the political revolution that has

taken place in the party. The party is increasingly domi-nated by a radical right totally out of step with the rest of the democratic world, including the most conservative portions of that world. A Republican Party dominated by the men who controlled the proceedings in Dallas could not fail to place a great strain on America's friendships throughout the world, particularly after the current, relatively pliable White House incumbent leaves the political scene.

The Dallas platform is sobering because it shows how little effect the experience of wiclding power has had on the foreign policy views of the ascendant faction of the Republican Party. The platform is not a conservative document but a radical manifesto that carries falsehood and irresponsibility to new levels

for American politics.

The Carter administration is accused of "diminishing" U.S. military capacity, and of "unilateral disarmament." In fact, that administrations are stripted of istration reversed earlier trends of declining military budgets.

The Republican platform effec-

By C.W. Maynes This is the first of two articles.

tively calls for the breakup of the Soviet Union, the overthrow of the Castro government and popular revolt throughout Eastern Europe. Not satisfied with a call for more

democracy in the Soviet Union, it wants "national self-determination," a code word for independence for the various parts of the Soviet Union. The Dallas drafters envision a "genuine democracy" in Cuba's future. In another context this would be an unexceptional goal, but the Reagan administra-tion began its term with talk of solving its security problems in Central America by "going to the source," which it saw as Cuba.

Although the president had earlier ended talk in his administration of "prevailing with pride" in a nu-clear war and had instead insisted that no side could win in a nuclear exchange, the Dallas document re-introduced into the political dialogue this Strangelovian concept. Since neither side will accept inferiority, the document also fuels the arms race by its call for "maintaining a technological superiority"

over the Soviet Union. The Carter-Mondale administration is depicted as anxious to sign agreements with the Russians "at any price." In fact, that administration entered into and then froze or

broke off negotiations with the Soviet Union over the Comprehensive Test Ban Treaty, limitations on na-val forces in the Indian Ocean and conventional arms transfers, be-

cause it could not agree on terms.

Mr. Carter could also have had a SALT agreement in his first year if he had been willing to exploit immediately the conceptual breakthroughs that President Ford had achieved at Vladivostok in his talks with Leonid Brezhnev. Instead he chose to seek a much more ambitions agreement, failed, and finally had to settle for terms very close to those Mr. Ford had developed.

The Dallas drafters complicate the efforts of the International Monetary Fund to stave off a global credit collapse. Endorsing legislation sponsored by Congressman Jack Kemp of New York, the platform denounces the "austerity programs" that the IMF has negotiated with key developing countries that are trying to pay off their debts to Western banks.

There are also passages that suggest that the defunct Know-Nothings of the mid-1800s retain influence in the United States. In Dallas the Republicans denounced the Palestine Liberation Organization for relocating in Syria when in fact it has relocated primarily in other Arab countries and Syrian gunners have been raining shells on PLO forces in northern Lebanon.

© 1984, Charles William Maynes.

for the practice of publishing allega-tions of fact made by persons who do not wish to have their identities re-vealed. It may be doubted however, that journalistic deontology should permit a foreign correspondent to buttress his reports with anonymous quotations. For whom are these unnamed diplomats speaking? Do they represent their government's views, or are they voicing personal opinions? Do they, in fact, always exist, or

are they created by the writer to support his - or his publisher's - posttion? At the very least the reader ought always to be told the "diplomat's" nationality so that he can eval-uate what is alleged to have been said It is, of course, natural for a correspondent to interrogate diplomatic contacts as part of his everyday work.

But when a diplomat's words are published without identifying him. responsibility for what he says is 00 scured. Would it not be fairer to the reader (although perhaps it would not be in the United States journalis tic tradition) to permit the journalist, having canvassed his diplomatic conploying the first person singular if beso wished? At least the responsibility for the views expressed would be unambiguous.

## View' Has Sense of Old-Time Drama

By Sheridan Morley

ional Herald Tribione T ONDON - Those of us lucky enough to have been reminded at his East Anglian university seminar this summer of the greatness of Arthur Miller now get further proof of that remarkable talent at The Young Vic. where there is the first major production in almost 30 years of his "A View From the

The last one was banned by the Lord Chamberlain. In those best forgotten days of theatrical censorship, steel-nerved adults who wished to see Anthony Quayle kissing Richard Harris on stage had to join a "club" at the Comedy The-

But now that the play is on public show, it may come as something of a surprise. In the first place it's not really about homosexuality. any more than it is about the great Lear-like figure evoked by Quayle coming to terms with an incestuous love for his own niece, although those are minor strands of the plot. Essentially, though, this Ibsenite drama comes, like "The Crucible" (written three years earlier and now also in British revival on a smallscale Royal Shakespeare Company tour), directly from Miller's fixation on conscience and betrayal, issues highlighted in the United States by the McCarthy hearings of the mid-1950s. Indeed, 1956, the year when "A View From the Bridge" was first seen here, was also the year that Miller was found of the House Un-American Activi-

### INSIGHTS

A Shining Path, or Sendero Luminoso, guerrilla, imprisoned in Peru, studies the thoughts of Mao in his cell.

## Peru's Rebels Operate by Their Own Rules

Shining Path: Brutal, Secretive and Imbued With a Near-Messianic Zeal

By Marlise Simons

New York Times Service IMA — They burl dynamite, occupy villages, recruit the poor and indoctrinate the young. To some, they are disciplined idealists, full of soaring promises of a better world. To others, they are fanatical execution-

It seems a familiar story about leftist rebels, this time set in the Peruvian Andes, among the Quechua Indians. But the Shining Path, or Sendero Luminoso, guerrillas, against whom Peru's government recently ordered a large-scale mililary drive, go by an entirely different set of

Claiming to be the only vanguard of world revolution, they hold Havana, Moscow and Beijing in contempt and appear to admire only the radical Gang of Four that tried to seize power after the death of Mao in 1976.

They have baffled South America's liberals and leftists, who usually sympathize with revolutionaries. Among Peruvian politicians, both the far left represented in the parliament and the Marxist mayor of Lima have disowned them. So has China's Foreign Ministry.

Large-scale killing appears to take place on both sides of the Peruvian conflict. In August, several mass graves were found and the bodies they held were apparently those of the victims of military repression against suspected Shining Path guerrillas. Late in the month, when the army commander in charge of the drive suggested a more political approach to the problem, he

For a long time, little was known about the guerrillas except that they frequently executed perceived enemies. Their numbers, organization and ideology remained much of a mystery. They showed no interest in publicizing themselves in the press; Abimael Guzman, their founder and semi-colonial society." Oscar said, with illiterate leader, has not been seen by outsiders for six peasants "abused by a minority for centuries." leader, has not been seen by outsiders for six

According to officials, Peru is holding 855 people on charges of terrorism, of whom 260 are in Lurigancho, the nation's largest prison. The bleak compound sits on a mean, brown strip of windy desert just outside Lima. Compared with the other, rowdy cellblocks, where guards said they could not guarantee a visitor's safety, the separate "political" wing seemed a model of silence and work.

Such special quarters for political inmates are not unusual in Peruvian prisons, where the prison authorities provide almost no food, clothing or library services. Such things as food, bedding, reading materials and the like are provided by relatives. The inmates are left much to their own devices in their quarters and are free to decorate the walls with political banners and stock their

libraries with leftist political literature.

Amid broken windows, swarms of flies and the stench of an open sewer, the guerrilla prisoners - young and middle-aged men with Indian features — were writing, weaving or reading books from their own small libraries.

Frayed volumes had been stitched with cotton thread: texts of Mao and Lenin, a Bible, poetry from Spain, the writings of José Carlos Mariategui, the Peruvian who wrote half a century ago that "Marxism-Leninism will open the shining path to revolution" and thus provided the group with its name.

Several young men who appeared to be leaders said that 134 members of Shining Path were in the prison. But they wanted to talk only of prison conditions. They cited torture, lack of food, 10 men with tuberculosis, four with hepa-

titis and general anemia. No real names would be given, the spokesmen said. They were farmers, miners, students and

"We are thousands," one of the young men

Government estimates have put the strength military and public utility companies in the of the guerrillas, who have incorporated about six other small leftist factions, at 2,000 to 7,000 militants. But there are no reliable estimates for

They are believed to be poor Indians, stu-dents, people in the vast Lima slums. Many are thought to lead normal working lives, acting as guerrillas only for the duration of an operation. Others, Roman Catholic Church sources say, are believed to be lay preachers.

Slowly the prisoners switched to their political message, showing some of the near-Messian-ic zeal that has prompted some Peruvians to describe Shining Path members as "the fundamentalists of the armed left."

Taking turns, the young spokesmen said that their group was fighting to enter a "new historical stage of Marxism" because "everywhere, in other revolutions, revisionists have seized power only to dominate the people." Their leader, Mr. Guzmán, is known as the

Fourth Sword of Marxism, they said, because he is following the true path of the three others: Marx, Lenin and Mao. Peru, the spokesmen said, is now the world center of this revolutionary stage and Shining Path is its "beacon and guide." But when the

new era comes, a young man named Oscar added, "there will be a joint intervention against us by the Soviets and the North Americans because they will find true communism intoler-They spoke with more vehemence of the "soalism" of Moscow than of "Yankee

imperialism" and said they favored the cause of

the rebels in Afghanistan. AO'S China had been chosen as their model because of its similarities with Peru. "We are also a semi-feudal and

But a recent visit to a men's and a women's the Chinese revolution. "In a military offensive prison provided some of the first interviews with middle-ranking leaders of the group, offering some direct insight into their nature and philosophy.

cy," the prisoners declared, has already been established in "liberated zones" in the Andes. Large writing on the prison walls proclaimed Mr. Guzman, known by his nom de guerre of Gonzalo, to be its president.

The "guiding thoughts of President Gonza-lo," sheets of fine calligraphy displayed on red tissue paper and framed with gold on a large board, appeared the only bright spot amid the

Gonzalo's pronouncements usually come in easy phrases and aphorisms, much like those of Mao. "The Great Break has come," one read, "the Rebellion is justified."

It was 1963 when Mr. Guzmán, a philosophy teacher, arrived with a group of teachers and students in Ayacucho, an old and quiet Andean town a 30-hour bus ride from Lima. University students were apparently mesmerized by this man who wrote his thesis on the "Theory of Space in Kant," who was first a pro-Moscow communist and who, like many Peruvian left-ists, sided with China after the Chinese-Soviet

had an audience," said one of Mr. Guzmán's former students. "Outside class he was withdrawn and very secretive." The extreme secrecy and the schematic nature of Shining Path, some believe, may be linked to these traits of Mr.

In the isolation of Ayacucho, in 1970, Mr. Guzman and a group of teachers and students formed the Communist Party of Peru, which became known as the Shining Path.

They spent the next 10 years laying the groundwork for guerrilla warfare, using reteachers from all over Peru. Some had spent more than three years in jail, they said, and few had been sentenced.

search projects to study peasant life and recruit more than three years in jail, they said, and few had been sentenced. Peru. At the same time, according to an intelligence source, they infiltrated the police, the' smash you."

Members of the Shining Path movement hold a political meeting in their wing of a Peruvian prison.

launched in 1980, when Peru obtained an elect-

ed government after 12 years of military rule. "To show the whole system is rotten," said a Some of these conditions are new, including young man who called himself Carlos. "The holding weapons systems hostage to evidence of government is irrelevant to most poor people, it's all the same, civilian or military.

Since then, the guerrillas have killed more than 100 policemen and many more villagers and minor officials and their acts of sabotage have caused losses of \$75 million.

If Mao said that an alliance of the peasantry, the proletariat and the middle classes was the way to make a revolution, why had Shining Path peasants, small-business men and minor around it. officials in the villages and towns? There were reports of a massacre of about 70 people in the village of Lucanamarca last year.

been executed, traitors, informers, exploiters of

On occasion, there were glimpses of the Mao-policy. portedly inspired Shining Path. Unlike Central America's rebel groups, Shining Path appears not to depend on outside supplies or solidarity.

The movement needed little money, the prisoners said, because living off the land was an important part of their strategy. With the absolute faith that characterized most of their statements, a prisoner said, "Shortages will always be overcome if the path is right."

That path appears to include stealing and fabricating weapons. The police said the guerrillas have stolen 95 cases of dynamite so far this year and showed ingenuity in inventing weap-ons: they tossed dynamite sticks with llama-hair slings, a weapon of Indian herdsmen, made bombs out of cans and turned fishing-line guns into mortars. Most of the confiscated firearms, the police have said, were stolen from the police and military.

women held on charges of terrorism in Peru, six live in a large room, among babies and cans of powdered milk. In Peru's traditional society, many people have been shocked by the fact that State an women have not only joined the guerrillas but at House.

Now.

Holding her baby, born in prison two months earlier, Liliam Torres, 23, said she had worked as a maid and a street vendor in Lima from the She had been alraid at first "to join the party," she said, but became aware of her re-

sponsibility when she learned about "the class struggle" and the "offensive of world revolun" taking place in Peru.
"Now I am happier," she said. "I have

## Reagan's Foreign Policy Struggle

By Murrey Marder Washington Post Service

ASHINGTON -- The 16 blocks of Pennsylvania Avenue between Capitol Hill and the White House are sometimes a pathway for cooperation, but more often a frontier between rival power centers. After three and a half years of the Reagan presidency,

of international policy. In foreign affairs President Ronald Reagan portrays himself as a Gulliver tied down by Lilliputian constraints, at the same time claiming success in moving the United States to a strong position in world affairs.

competition predominates across the spectrum

Congress has been assertive in foreign policy for a decade, from the end of the Nixon years. This assertiveness has raised exceptional challenges, however, for the Reagan administration. There is a combination of inherent institutional rivalry and reaction to the president's determination to overturn much of the earlier pattern of

Mr. Reagan's opposition to all arms-control pacts negotiated by his predecessors, as well as his propensity to rely more heavily on the use or threat of military force, has struck great sensitivities in a legislature trained to checkmate presidential power. With Congress and the presidential power of the congress and the presidential power of the congress and the presidential power. ident approaching the task of government from these opposite directions, Congress is unusually wary of Mr. Reagan's intentions, particularly in nuclear arms control and in the use of U.S.

troops overseas and in support of foreign wars. As a consequence, Congress has gone to extraordinary lengths to try to control administration foreign policy, by writing unusually explicit prohibitions, timetables and weapons schedules

nto legislation. Congress moved from making human rights a condition for foreign aid, to setting tight limits on military advisers in El Salvador, to trying to cut off U.S. support for anti-communist guerrillas in Nicaragua. To induce productive negotia-"Many people wanted action; they were tired tions on nuclear arms control, Congress — particularly the House of Representatives — has increasingly sought to put strings on developno resident recalled.

Increasingly sought to put strings on development or production of new weapons systems, cruise missile and the MX missile.

the Reagan administration's sincerity in nuclear regotiations and evidence that the Soviet Union

is unresponsive. The current round of these efforts is imbedded in debate over defense authorization and appropriation bills. Inevitably, some form of compromise will emerge. The Reagan adminis-tration has shown great resourcefulness in extri-cating itself from the webs that Congress spins

To some Washington veterans, therefore, the bottom line is that Mr. Reagan wins and Congress repeatedly shows itself to be a paper tiger, nipping at the administration's flanks. Frontal assault is not the congressional style. Beyond HERE had been no massacres, only assault is not the congressional style. Beyond the question of who wins an encounter, however, their movement, a young man replied.

Another prisoner added: "Some people have caught up in the process is the cumulative cost

ions about the size of the organization, its inancing or its reported tight cellular structure.

On occasion, there were eliment of the organization of the organizati Across the government, in both the legislative

N the United States, Mr. Reagan's domes- de tic successes have dominated public interest in the legislative process, as administration strategists planned.

In the first two years of the Reagan presidency a coalition of Republicans and conservative Democrats in the House enabled the administration to ride over the nominal Democratic

A White House Legislative Strategy Group — with James A. Baker 3d, the White House chief of staff and other top Reagan advisers as members — gained authority over what it called "everything that moves" in the government. A presidential assistant, Richard G. Darman, who conceived the group and became its coordina-

tor, has compared its functions to playing "a multi-dimensional chess game."

The game has changed considerably in the last two years. The 1982 election cost the admin-In the Chorrillos women's prison, conversaistration its prized operational control of the
tions followed much the same lines. Of the 80 House. Since then there has been a running battle for votes, especially in foreign affairs, with the administration plagned by internal policy splits among the highest officials in the State and Defense departments and the White

Now, as White House strategists plan for the second Reagan term they anticipate, one official noted a natural erosion of presidential power in every term. "We don't know the rate of erosion in a second term," he said. "The risk of making a mistake that would start the curve down is much

greater in the second term." This means, the official said, a president has to move fast, especially in foreign affairs, in the expected second-term "honeymoon" of six to

aine months.

Although no one in the Reagan White House would say so in public, some senior staff members there do accept the activism of Congress as natural and enduring. To reject it, said one, "is running against the tide of history."

"Congress likes to be fondled, but not played with," said Kenneth M. Duberstein, who left his post as chief lobbyist at the White House at the end of 1983 to become a vice president in Timmons and Co. Inc., a lobbying concern. An adviser to the Reagan re-election campaign, he displays no chagrin about the congressional outlook, only pragmatism.

"A favorite word of the Congress in the last several years is 'conditionality,' Mr. Duber-Reagan 'won' on X vote. What you don't read in the headlines, or watch on network news, are the conditions that Congress incorporated in the

If Reagan wins a second term, greater use is anticipated of bipartisan commissions to bridge otherwise insurmountable divisions with Congress, such as those on social security, Central America, the MX missile and nuclear strategy. Some members of Congress, however, foresee more roughbouse tactics on both sides.

HE administration has pursued a war in Nicaragua that the House three times has tried to cut off, a war the Democratic nominee, Walter F. Mondale, is pledged to end if he becomes president. The Reagan administration has shipped weapons abroad that Congress sought to block and made military dispositions that Congress tried to foreclose. It has tied Congress in knots over the Nicaraguan rebels, Stinger missiles, El Salvador, population con-trol, military bases, multilateral aid and, notably, over whether the Soviet Union or the Reagan administration is responsible for the stalemate in nuclear arms control.

In the process, the United States has edged to the right in its overall foreign policy, including the economic and sociological sectors.

Mr. Reagan has said his administration is distrusted by the public and significantly to the bobbled by some 150 restrictions imposed by right of most expert and congressional opin-Congress in the last 10 years on the president's power in international diplomacy. When Senator Robert J. Dole, Republican of Kansas, invoked that number in a radio debate with Sena-tor Edward M. Kennedy, Democrat of Massachusetts, Mr. Dole cited it as 150 restrictions imposed by "liberals" in Congress.

However, many Democrats and Republicans Congress agree that the pendulum has swung too far: Congress is institutionally snarled in duplicatory attempts to examine, check, review and direct U.S. actions abroad.

Both Democrats and Republicans sympathize with the complaint voiced by Presidents fimmy Carter, Gerald R. Ford and Richard M. Nixon since the early 1970s and recently by Mr. Reagan, who said, "I just don't think that a committee of 535 individuals, no matter how well-intentioned," can conduct the nation's for-

"I think one of the most grievous inadequa-cies of our present system is that the president of the United States, who has to conduct foreign policy, is left enfeebled in terms of ... crucial foreign aid and military assistance. I could give you a hundred examples. It took us a year to get

the little help we got in Nicaragua... For crying out loud," let a president govern."

The speaker? Not Mr. Reagan in 1984. It was Mr. Mondale, in the final hours of his vice presidency in January 1981.

Mr. Mondale is unlikely to duplicate that "give-the-president-a-break" theme now. Protesting constraints on the presidency is the la-ment of incumbents, not challengers. Many other Democrats, however, concede the need to ase up on presidential encumbrances.

The most contentious curb on the presidency the 1973 War Powers Resolution. A liberal Republican, former Senator Jacob K. Javits of New York, was its prime designer. The current chairman of the House Foreign Affairs Committee, Representative Dante B. Fascell, Democrat of Florida, recalls that he introduced the resolution in the House, but since then, he said, "I think we put too many barnacles on the

However, the current administration, Mr. Fascell said, must recognize that "Congress is going to be more and more involved, not less" in foreign policy, and the administration cannot "run over it." For Congress, he said, unquestionably reflects persistent public concern about the Reagan administration's confrontation with the Soviet Union and what is seen as "dragging the United States into every corner of the

Mr. Fascell conceded that the administration frequently outflanks the liberals on his committee and on the Senate Foreign Relations Committee, headed by Charles H. Percy, Republican of Illinois, with resolutions for foreign aid, hur-ried through the Senate and House appropriations committees. What is lost, Mr. Fascell said, is the work of knowledgeable members that knits policy strands into a coherent pattern.

ANY members feel driven to try to force through board --force through broad policy on their own. Senator Sam Nunn, Democrat of Georgia unsuccessfully tried to compel West European nations to increase defense spending by legislation threatening to cut U.S. troop levels. But, Mr. Nunn said, "the more we micromanage, the less we have to do with the overall direction, the less time we have to set the agen-

The dilemma expressed on Capitol Hill is that when Congress lays out policy in generalities, the executive branch does end runs around it; when Congress tries to tell the executive precisely what to do, it is vulnerable to the "micromanagement" accusation.

Despite administration complaints that it is being throttled by Congress, some specialists are most struck by the inability of Congress to put effective fetters on Mr. Reagan's presidency. "The most remarkable political story of the first eight months of 1983," wrote LM. Destler in The Washington Quarterly early this year, was that the administration "managed to win continued support, from a more liberal congress, for loreign and national security policies on his own.

"Presidents don't lose national security is sues," said Representative Lee H. Hamilton Democrat of Indiana, chairman of the House Foreign Affairs subcommittee on Europe and the Middle East. "If the president wants to go to bat on any specific issue, he will win it," he said.

At best, Mr. Hamilton said, Congress can only make an administration slow down and think. Sometimes, he conceded, "we overreach"

For generations Congress was ruled by a few leaders who bargained with the executive and could deliver the votes. In the 1970s, supremacyby-seniority was shattered by sweeping changes in committee control, while mushrooming staffs brought in specialists often able to challenge witnesses from the executive branch with equal expertise. The greenest freshman in Congress now may be bold enough to take on the secretary of state or defense on Nicaragna or E

Economics has rubbed out clear dividing lines : between foreign and domestic policy. The fam-er in Kansas, the autoworker in Michigan, insist that the Agriculture, State, Commerce, Labor, Treasury and other departments should fulfill constituents' pocketbook interests in the world

In a study by the American Enterprise Institute last year called "Both Ends of the Avenue," Norman J. Orenstein noted "a striking expansion in the number, range and activity of interest groups" trying to influence Congress, along with a sharp rise in press interest.

Henry A. Kissinger, in his memoirs on eight years as national security adviser and secretary of state in the Nixon administration and secre tary of state in the Ford administration, saw a

deeper transformation.
"The liberal Establishment, which throughout the century had extolled the importance of a strong executive, had reversed itself and had pressed on the Congress its obligation to control

tightly an alleged power-mad and war-obsessed administration," he wrote. "That the Congress should play a major role in the conduct of foreign policy was beyond argument," he asserted. "But in the Sevennies passion overwhelmed analysis.... Congress can and ought to scrutinize the consequences of

diplomacy. It cannot carry it out."

Not all in Congress agree that Congress should play a major role in foreign policy. Senator John G. Tower, Republican of Texas, chairman of the Senate Armed Services Committee and also of the Senate Republican Policy Committee, wrote in the journal Foreign Affairs two years ago that ever since Congress rejected President Woodrow Wilson's World War I Ver-

sailles Treaty, congressional intrusion in foreign affairs has been a "disaster."

Mr. Tower said that Congress, by limiting the president's authority to send troops into combat zones by the War Powers Resolution, when emotions were at a peak over the Vietnam War and President Nixon's Watergate excesses, imposed on future presidents "a cure for a nonex-

The chairman of the House Republican Policy Committee, Representative Dick Chency, Republican of Wyoming who was a chief of staff for President Ford, said: "My view is that there is far too little trust in the president by the Congress. We elect them; we should allow their

There is a vast spread in congressional out-look. While conceding that the War Powers Resolution might be refined and improved, the Senate majority leader, Howard H. Baker Jr., Republican of Tennessee, said in October in tribute to Mr. Javits: "If there is any one date when this 'modern' era began, it is the day in 1973 when Congress passed the War Powers Resolution and reclaimed its proper constitutional role as a full partner with the president in

the field of foreign policy."
Representative Don Edwards, Democrat of California, says that is a myth. With 60 other

## It's Okinawa, It's Japanese, But It's a Town in Bolivia

By Peter McFarren

KINAWA, Bolivia - Tokusho Miyagi fought the Russians and Americans in World War II and spent 2½ years as a war prisoner in a Siberian coal mine. Now he oversees a 430-acre farm on Bolivia's tropical frontier, half a world away from his Okinawa homeland.

Mr. Miyagi, 63, is one of more than a million Japanese who settled in South America after the war and have become important contributors to the country's agricutural and

He lives with his family in a comfortable concrete bungalow in a town that is three hours by car from Santa Cruz, Bolivia's second largest city. Beside his home there is a garden filled with Chinese cabbage, a windmill atop a water tank and tractor sheds.

"I have no desire to return to Japan," he said recently. "But I still consider myself

Japanese."
"I was a prisoner of war in Siberia, and after I returned to Okinawa there was no work," he said. With his son's help, he grows soya, sorghum, wheat and rice. "In Okinawa, 300 families would have what I have here," he said.

AFTER the war, one million Japanese came to South America with relocation expenses and loans from the Japanese and U.S. governments. Most settled in Brazil, while 80,000 went to Peru, 30,000 to Argentina and 10,000 to Bolivia. The settlers in Okinawa introduced rice harvesting, chicken farming and modern agricultural techniques to the area. Okinawa and neighboring San Juan de Yapacani

now produce half of Bolivia's poultry and eggs.

Modern tractors, bought on credit from Tokyo, plow the community's 45,000 acres (18,000 hectares) of arable land, which this year produced 97,000 tons of rice, wheat, soya and sugar cane, and 550,000 dozen eggs. A cooperative of Japanese settlers is in charge of marketing the goods.

Once isolated from Santa Cruz by swampy terrain, Okinawa is now linked by a dirt road maintained by the Japanese International Cooperation Assistance program. Two modern hospitals built with Japanese government and serve the area's 1,600 Japanese

The first few hundred Japanese arrived in Bolivia as far back as 1899 to escape harsh living conditions on the Peruvian plantations to which they had migrated. When the postwar exodus began, the earlier immigrants helped the new arrivals settle. In 1954 Mr. Miyagi, his wife and five children joined 400 other Okinawans on their way to Bolivia. They were among the pioneer settlers of Okinawa, a rough rain forest

once inhabited by native tribes, pumas, wild pigs and alligators. The Bolivian government gave each lamily 50 hectares of land. The United States provided tractors and other farm equipment. ETTLING the land proved harder than some could endure. In the first six

months, 15 Japanese died in a mysterious epidemic. Many fled to Brazil and Peru, or returned to Japan. Flooding destroyed their first three rice harvests and drought killed cotton planted later.

Kori Yamashiro, former president of the Bolivian-Japanese Association, which is at the center of Okinawa's social and political life now, reflected on the country he left

behind and a recent visit there. "I saw what life in Japan was really like," he said. "The people are very busy and have no time for pleasure. One has to work hard to maintain a family. I'm content here. At first it was hard, but now I'm used to life in Bolivia." Most children of the first postwar immigrants consider themselves Bolivian, but maintain close ties with Japan. Kyomi Nakazo, 26, arrived as a toddler in 1959 during a

second wave of immigration. She now works as a nurse at the Okinawa hospital and has married a Japanese she met last year while studying in Japan.

"Japan is another world," she said. "I liked it very much, There is more comfort in Japan. But spiritually, I prefer to be here."

### INTERNATIONAL MANAGER

## 'Golden Parachutes' Get More Common in Britain

By SHERRY BUCHANAN

International Herald Tribune ONDON -- "Golden parachntes" in Britain may not be what they are in the United States. But in recent years Britain has had its share of large payments to exiting chief executives, and more are in the wind. Sir Larry Lamb, former editor of News International and now editor of the Paily Express, reportedly got £213,000 (\$271,000), Timothy Royle, former managing director of Hogg Robinson Group Ltd., got £206,000 and Jack Gill, former chief executive of Grade industries, got £750,000. There as several other recent private settlements that were above £750,000.

A U.S. invention, the golden parachute is a pre-negotiated clause that guarantees a chief executive a certain payment under a'specified set of circumstances.
The U.S. chief executives'

escase for hanging on to their golden parachutes is that they have no other legal protection should things go wrong. Theo-retically, the golden parachute should encourage a chief exec-taive to take on a shaky company and turn it around

asking for tougher contracts before they jump on a ship that But European chief execumay be sinking. tives that benefit from all

In Britain, CEOs are

kinds of protection under existing legislations have less of an excuse for claiming huge payments on top of what they are gnaranteed by law.

But with the recent merger fever in Britain, chief executives are asking for tougher contracts before they jump on board a ship that may be sinking. At the same time, shareholders, especially large British pension funds that have the financial muscle to do it, question whether executive payments really have anything to do

with the shareholders' interests. For publicly owned British companies there are certain checks against abuses by CEOs. The Yankee-style golden parachute does not exist. It would be against a British CEO's interest to pre-negotiate a fixed sum that would only be taxed away as income by the government. What is happening instead is that CEOs are insisting on three-year contracts, a practice that had gone by the wayside in more prosperous times.

NDER that kind of contract, a CEO that is fired before his term is up will receive the balance of what remains. "Increasingly auditors are requiring to declare payments in annual reports," says John Carney, director of executive compensation at Towers, Perrin, Forster & Crosby, a consulting firm, in London. British companies are getting very sensitive and prefer not to be over liberal with golden handshakes and just

meet their contractual obligations." Under the Companies Act, the maximum contract that a CEO can ask for is five years, which acts as a theoretical ceiling. The three-year contract seems to be enough of a financial incentive to get top men to do the job. For instance Sir Michael Edwardes, the man who turned BL PLC around, was brought in as chairman of ICL PLC six months ago under a three-year contract. Following the recent takeover of ICL by Standard Telephones & Cables PLC, it is widely speculated that he will

£325,000, the balance left on his contract. The silver lining of golden parachutes is that a chief executive who knows he will be taken care of if he loses his job is more likely to act in the shareholders' interest as well as in his own in the case of a takeover. "It must have helped him [Mr. Edwardes] to be more dispassionate about the takeover bid," says a London-

leave ICL and receive two and a half years of pay, a reported

based consultant who is close to the case. In France, Italy and Belgium, chief executives are so well protected through private - usually secret - agreements that the golden parachute idea doesn't apply. Even if takeovers were to increase from their current low level, French executives would not need any additional protection. Under French law, they are

fully protected regardless of ownership. "Top chief executives of top companies in France don't get fired and don't get penalized for their mistakes, they just stay on the supervisory board. Nothing ever happens that's dramatic," says a Paris-based expert on executive compensation.

## Dollar Slips a Bit In U.S.

### But Currency Remains Strong

The Associated Press

NEW YORK — The dollar turned in a mixed performance Tuesday in foreign-exchange trading in Europe, hitting a new high against the French franc but retreating from record highs against the British pound. In New York the dollar eased slightly.

In late trading in New York, the U.S. currency slipped a little against other major currencies. The pound strengthened to \$1.2775 from Monday's \$1.2725. The dollar eased against the Deutsche mark to 2.9998 DM from the previous day's 3.01 DM. It fell against the French franc to 9.205 from 9.24 francs, and against the Japanese yen it eased to 245.15 from 246.125 yen. The dollar has been on a record-

setting pace for more than a week, but foreign-exchange dealers said some traders think that U.S. interest rates could move lower at least

in the short-term.
In Frankfurt Tuesday, the dollar closed at 2.9976 Deutsche marks, up from 2.9922 Monday, but in London trading, the pound rebounded to close at \$1.277, up from \$1.2755 Monday. The French from alcosed down at \$2.2255 com franc closed down at 9.2295, compared with 9.165 Monday. The lira fell to 1,848.75 from 1,839.90 the previous day. The Swiss franc closed unchanged at 2,4893.

One key short-term U.S. interest the federal fund on the spirit fund on the probability.

rate, the federal funds rate, which is the interest on overnight loans be-tween banks, traded at 11% percent near the end of the European trading day after flirting with 12 percent last month.

Interest rates have an important effect on currency trading, as rising rates make the dollar a more attractive investment.

The dollar began its trading day by falling to 245.05 Japanese yen in Tokyo, down from 246.10 yen

Monday.

As trading moved to Europe, the dollar opened higher, continuing the surge that took it to new highs Monday against the French franc and Italian lira, an 114-year high against the West German mark and seven-year record against the

Gold prices rose to \$340.25 a troy ounce in Zurich from \$338.50 Monday, and finished at \$341 an ounce in London, up from \$338.25.

### ■ No Alternative Seen

Dealers believe investors and speculators still see no real alternative to the U.S. dollar, given its strong economy and political stability. Reuters reported.

With few banks willing to sell the With few banks willing to sell the age of 2.5 percent annually on an dollar in this climate, even small purchases are able to give the dollar through 1988, the Finance Ministry sharp boost when conditions are a sharp boost when conditions are says. thin, they said.

In New York on Monday, for "long-term recovery," released this instance, the dollar quickly jumped week, precedes the opening of par-three plennigs around the time the liamentary debate Wednesday on Chicago futures market was closing the fiscal 1985 budget. Tax reform, and direct interbank dealing had as well as measures to cut unemall but dried up.

# Spending in '84 By U.S. Business To Hit a Record

By Jane Seaberry Washington Post Service

WASHINGTON — U.S. businesses plan to increase spending on plant and equipment by 13.3 percent this year, after adjustment for inflation, the Commerce Department said Tuesday. The figure was a decline from an earlier estimate of a 14.8-percent increase but was still a reflection of strong growth in

capital spending.

Businesses plan real capital spending this year of \$144.66 billion, up from \$127.71 last year, the department added. Before adjustment for inflation businesses said they would spend \$307.60 billion. compared with \$269.22 billion last "Real new investment should

reach a record high during the current quarter and if plans are realized, the year-to-year increase would be the largest since 1966," Commerce Secretary Malcolm Baldrige said.

Increased capital spending should make the United States "an increasingly tough competitor in world markets," he said. "Today's release indicates that the nation's stock of capital goods is increasing

rapidly."
Mr. Baldrige said the growth in capital spending was the result of strong sales, administration investment incentives and confidence of businesses in the U.S. economy's growth. "The new investment is adding to capacity and productivi-ty and will make the U.S. an increasingly tough competitor in world markets." Mr. Baldrige said.

Early during the economic rebecause demand was strong and they did not think capital spending was growing fast enough to in-crease factory capacity and head off price increases resulting from shortages and bottlenecks in delivery of some goods.

However, as the expansion grew, so did capital spending, particular-ly in cost-saving and less durable goods such as computers.

Increases in capital spending that expand capacity help to keep down inflation. In addition, capital goods tend to improve productivi-ty, which also helps avoid accelerating inflation.

strength of capital spending."

Kaufman Sees Lower Rates

-- For Now

United Press Internation NEW YORK - The Federal Reserve's efforts to allay concerns that it intends to firm monetary policy should result in slightly lower short-term interest rates over the near term, Henry Kaufman, the chief conomist at Salomon Broth-

rs, said Tuesday. Mr. Kaulman noted that the Fed has supplied "a substantial volume of reserves during the past week and a half," suggesting it wants to "dispel any fear of a firming in money rates over the very near term.

Because of this, Mr. Kaufman said, the overnight federal funds rate, which has been trad-ing well above 11½ percent, "is likely to be in the range of 11 to 11½ percent for the time be-ing." The Federal Reserve funds rate is the rate banks charge each other for overnight loans to meet their reserve re-

It also is "highly unlikely" that the Federal Reserve will raise the upper end of its target-ed band for the funds rate above 12 percent when its po-licy committee meets in Octo-

## **Prices on NYSE End Mixed**

NEW YORK - Prices on the New York Stock Exchange, which surged at the outset, finished with mixed results Tuesday when some investors cashed in on profits in blue-chip is-

Some of the late selling, according to analysts, was caused by reports that the chairman of the Federal Reserve Board, Paul A. Volcker, said he did not plan to change policy in the near

The Dow Jones industrial average, up 13 points at midday after shedding 4.86 Monday, fell 4.53 to 1,197.99, the lowest level since it finished at 1,196.11 on Aug. 8.

Advancing stocks led declining ones by a ratio of almost 2 to 1. Volume was 101.4 million shares, up from 74.4 million Monday. It was the

shares, up from 74.4 million Monday. It was the heaviest trading since 116.1 million changed hands Aug. 22.

"The market is still consolidating its early August gains and that's one reason for the churning action we have seen the past couple of days," said Alan Ackerman of Herzfeld & Stern. "There is a battle between those who believe interest rates are coming down and those who don't believe it."

Stocks and bonds surged at the outset as key federal funds rates dropped to 11¼ percent from the 11½ percent level of last week.

But the rally cooled off after Salomon Brothers' chief economist, Henry Kaulman, countered rumors by saying he had not changed his long-term outlook for higher interest rates later

this year.

Monte Gordon of Dreyfus Corp. theorized some late weakness might have been caused by

### British Aerospace Profit Rose 54% in First Half

LONDON - British Aerospace PLC reported Tuesday a 54-per-cent rise in first-half pretax profit to £56.3 million (\$71.6 million). It said it was confident of maintaining strong growth for the rest of thus year, given a continuation of present market conditions.

Steps taken in recent years to match group resources with expected sales are beginning to take effect and will help increasingly over the near term, the company said. The company said it was seeing a

### Pharmacia to Set Up U.S. Development Unit

STOCKHOLM — Pharma-cia AB said Tuesday that it plans to establish a development company in the United States that will acquire stakes in small high-technology companies and enter cooperation agreements in the same area.

The new concern, Pharmacia Development Co., is being set up to respond to offers of cooperation from companies in bio technology, medicines and diagnostic techniques that Pharmacia has received as it expands in the United States, it

modest but important upturn in the civil-aviation market, particularly for smaller planes with up to 100

British Aerospace said there was continued worldwide airline interest in its new BAe 146 short-haul jetliner after initial sales in California and Australia.

Its Jetstream 31 commuter aircraft was selling well, with the production rate rising, while a new business jet, the BAe 125-800, has received British and U.S. certification and 21 orders.

The Tornado fighter program is attracting considerable overseas interest, the company added. Also, talks to establish a program for a European fighter aircraft are contiquing with European governments and industrial partners. The new Hawk single-seater strike aircraft is due for its first flight in 1986.

### Belgian Interest Rates Cut

### 2 French Makers Of Vaccines Agree to Merge

United Press International PARIS - Two of France's biggest pharmaceutical compa-nies have agreed to merge to become the world's second-biggest producer of vaccines, the companies said Tuesday.

Institut Pasteur Production agreed to "join interests" with Institut Mérieux to produce serums, vaccines and diagnostic products. The largest is the American company Merck.

Pasteur is 51-percent owned

by the Sanofi group and 49-percent owned by the Pasteur Institute of Research. It will continue, under the agreement to provide research on new products as well as production of diagnostic products for use in pregnancy and disease-detection tests.

Mérieux, 51-percent owned by the chemicals conglomerate Rhone-Poulenc SA, will continue to take the lead in making and marketing serums and vac-

Mérieux, with twice the revenue of Pasteur at 800 million francs (\$87 million) a year, will allow the Pasteur staff "free-dom of research," Rhône-Poulene said in a prepared statement. The move would give France a stronger role in the growing market for vaccines.

## Trafalgar House Sells 7.08% Stake In P&O to Sterling Guarantee Trust

By Lynne Curry

International Herald Tribune
LONDON — Trafalgar House
PLC said Tuesday that it had sold its 7.08-percent stake in Peninsular & Oriental Steam Navigation Co. for just over £30 million (\$38 million) to Sterling Guarantee Trust

Trafalgar House, the British shipping and construction company, held 10.1 million shares of P&O and sold the shares for 307 pence

In response to the transaction. P&O shares fell to close at 296 pence from 305 pence at the opening of the London Stock Exchange. Trafalgar's shares rose to close at 274 pence from the opening price of 267 pence.

P&O's share price [ell because the transaction removed the uncertainty that there might be a high bid for the company, while Trafal-gar made a £13.5-million profit on the transaction, said Richard Hannah, an analyst at the stockbrokerage Phillips & Drew.

Trafalgar sold its stake because P&O's share price has risen much higher than when Trafalgar first launched its bid for the shipping and construction group in May 1983, according to a Trafalgar spokesman. The company has expanded in other areas, he added.

**COMPANY NOTES**

ermany's VEBA Group achieved substantially improved overall results during financial year 1983. This was largely the outcome of positive developments in petroleum and chemicals - formerly problem sectors - as well as a further growth of earnings in electricity and

which were financed entirely from internal sources, grew by DM 200 million to approximately DM 2.9 billion.

This positive trend has continued into the current financial year. Electrical power generation and supply, which grew by 12.6% during the first six months of 1984, remains the Group's most important sector.

PREUSSENELEKTRA's share of nuclear power rose from approximately 40% in 1983 to more than 54% this year. This has made it possible to maintain stable prices during 1984. Overall results for the electricity sector are expected to rise again during the current year.

significantly reduce both risks and in a higher dividend.

The trading and transportation activities of the VEBA Group, STINNES and RAAB KARCHER, have had good and stable results for a number of years - a situation which should continue into 1984 as well.

Thanks to successes in all sectors of the organization, overall sales of the VEBA Group increased by more than 5% to approximately DM 25 billion during the first six months of 1984. The Group's net income improved from DM 149 million during the first half of 1983 to DM 221 million during the same period of 1984. Assuming that the overall business upturn continues, it is likely that the Group's performance will improve The petroleum sector has managed to in 1984 as a whole, which could result

Welcomes Moves

On Foreign Banks

SYDNEY — Australia's largest listed bank, Westpac Banking Corp., welcomed the announcement by the country's treasurer, Paul Keating, of the criteria for foreign bank entry into Australia, Westpac's managing director, Bob White said Tuesday.

Bob White, said Tuesday.

It particularly welcomed Mr. Keating's inten-

tion to take account of conditions applying to Australian banks operating in other countries when considering applications, he said in a

He said Westpac is keen to develop its pres-ence in the western Pacific but is constrained by

the reciprocal access policies of a number of

Mr. Keating's decision to consider reciprocal access and greater than 50-percent foreign ownership of banks should enhance the opportunities for Australian banks in the region, Mr. White said.

He said that Westpac held the view that

foreign bank entry is part of the overall process of deregulation of the Australian financial system, which the bank supports.

Foreign bankers here said they also welcomed the release of the broad criteria for foreign bank entry, although they said that many aspects of the proposals had already been announced by the government.

The greatest virtue of the plans announced by

The greatest virtue of the plans announced by Mr. Keating is the degree of flexibility they contain, the foreign bankers said.

By not limiting the number of banking licences the government plans to issue, it will receive a wide cross-section of applications, although the 10-week deadline will favor those who have been planning to apply for some time, that each

### EMPRESA NACIONAL DE ELECTRICIDAD S.A.

### ENDESA

REPUBLIC OF CHILE

"NORTE GRANDE" INTERCONNECTED POWER SYSTEM INTERNATIONAL PREQUALIFICATION

Empresa Nacional de Electricidad S.A., ENDESA, intends to invite to tendem by the end of 1984 for the execution of the works comprehended in the "Norte Grande" interconnected power system

"Notic Grande" is the name that has been traditionally given to the zone covering regions I v II of the Republic of Chile.

### WORKS OF THE POWER SYSTEM

The "Norte Grande" interconnected por er system (abbreviated "SING") project, whose construction will permit to interconnect the electric systems owned by Empress Electrics del Norte Grande S.A. (EDELNOR) and experiención Nacional del Cobre de Chile (CODELCO), covers the execution of the following works:

220-kV single-circuit Crucero-Pozo Almonte and Crucero-Mejillones transmission lines. Construction of 243 and 155 Km respectively.
 110-kV single-circuit Mejillones - Antofagasa and Iquique - Pozo Almonte transmission lines. Construction of 65 and 41 Km respectively.
 66-kV single-circuit Arica-Pozo Almonte transmission line, 216 Km. Transformation into a 110-kV line.
 Arica substation. Construction of 110-kV switchyard and expansion of existing 66-kV switchyard.
 Iquique substation. Expansion of existing 66-kV switchyard.
 Prozo Almonte substation. Construction of 220 and 110-ky switchyards and expansion of existing 66-kV switchyard.

Crucero Substation. Construction of a 220-kV switchyard.

Mejillones Substation. Construction of a 220- and 110-kV switchyards.

Antologasta Substation. Construction of a 110-kV switchyard.

Several substations. Change of six transformers.

### **WORKS CONTRACTS**

In order to execute said works, ENDESA invites to manufacturers, suppliers, of goods originated in member countries of the Inter-American Developmen Bank (IDB), and whilean and foreign construction companies of said countries, to participate in the prequalification process for submitting bids for the following the countries of the countries of

SING - 11 supply of structures for SING's transmission linea, SING - 12 supply of materials for SING's lines (conductors, insulators and hardware), SING - 13 construction of SING's lines,

SING - 21 construction of civil works I al SING's substations.

SING - 22 supply of main equipment, detailed design, prection and construction of civil works II of SING's substations (it includes telecommunications, but excludes load dispetch familiates).

SING 23 supply of other 110, 66 and 13.8-kV equipment for SING's substations (it includes one power transformer, disconnecting switches, 15-kV

The participants may be companies or consortia, and must show their technical and financial capacities to carry out the contract(s) they wish to participate

ENDESA will invite hids only from those compenies and consortia achieving prequalification.

SALE OF DOCUMENTS

## ENDESA has requested the Inter-American Development Bank a loan to partially finance the project. The balance will be financed by means of ENDESA's own resources and credits tied to suppliest of equipment and materials.

Proqualification documents, written in spanish only, can be bought since Superaber 12th, 1984 onwards at ENDESA's headquarters located at Santa Rosa Street No 70. Santingo, Chile, from 9 a.m. to 12 m. and from 2:30 p.m. to 4 p.m. Monday to Thursday, and 9 a.m. to 12 m. the Fridays.

In addition, the documents may be requested by mail from: Jese Departamento de Estadios para la Construccion Casille 1392

Santiago - Guile Price for each set of prequalification documents is \$10,000 (Chileen currency) or U.S.8100.

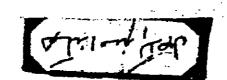

Registered air delivery of documents set will have an extra charge of \$1,000 or U.S.\$10.

Since September 4th onwards, interested persons may request, at the same address indicated above, a free minute covering general information on the proper and prequalification requirements.

### RECEFTION OF INFORMATION ON PARTICIPANTS

The information requested in the prequalification documents must be received by ENDESA not later than October 29th, 1984.

## On Bonds

(Continued from Page 9) Species is in for a rude surprise when it tries to tap the market.
This is because the major finan-

institutions already have a controllo of Treasury securities. These institutions were never inmilited by the 30-percent withholding tax on interest payments and the mid-July repeal of this tax offers no new incentive.

The one group of institutions likely to be affected by the tax repeal are pension funds, whose demestic tax-free status made them mable to benefit from the doubletenation agreements the United States has with most countries. These institutions previously were not able to recapture the 30-per-States and only now can buy U.S. sovernment securities free of tax.

Experts estimate these institutions may sit on assets valued as ngh as \$40 billion, but only a fraction of that, and certainly not more than 20 percent, it is thought, is likely to be committed to buying 11S grivernment paper.

The big uncertainty is what the tax repeal will mean to private investors and here the doubt centers on the last that the Treasury securipes will be registered issues rather then the anonymous bearer bonds these investors prefer.

Although the securities are to be stered, the Treasury has said it If not seek the names of the holders but will be satisfied with a statement from foreign banks which buy the paper that it is not being held for clients who are U.S. citi-

Foreign branches of U.S. banks, owever, must have on file affadaits showing that their clients for ench issues are not American — a requirement that U.S. banks conand put them at a competitive dis-

The Treasury will insist on reciving assurances about the na-tionality of the beneficial owner of a hountiful crop. And if, as now assurances about the naits securities on every coupon paysent date as well as before returning the principal at final maturity.

Analysts question whether for-sign banks and their private clients will accept this.

corn and wheat in their biggest summer buying spree since 1972. Analysts believe that the pur-

chases have assured that grain

a bountiful crop. And if, as now

vest falls short of lavish early ex-

ns likely, the United States har-

more than 10 million metric tons of \$3.90 a bushel.

Although the coupon is higher and the subscription crice lower than that on the Coke issue, Ford's paper was also quoted at a discount of 1½ points and dealers said it was moving slowly.

The least well received was the \$100-million, five-year issue from Merrill Lynch, which was priced at par bearing a coupon of 12% per-cent. Including the commissions it paid of 1% percent, its cost of money was 13.29 percent, about 14 point over comparably dated Treasury commissions of 1% percent paid to paper and a saving of about point over what it would have had to pay to raise the money in New

ment to borrow in New York, million issue for McDonald's Corp. priced at par bearing a coupon of 1214 percent — got a relatively Dealers reported the issue was good response. The final maturity of this issue is Oct. 15, 1996, but quest to be repaid or the issuer can call it in. As a result, it is regarded

While most grain purchases are tracked from July 1 to June 30, the

five-year grain agreement signed with the Russians last year runs on

an October-to September calendar. For the year ending Sept. 30, the Russians have already bought 14.3

million tons of corn and wheat, and

they have already contracted for 8.3 million tons in the next year,

Under the terms of the 1983

pact, the Soviet Union must buy at

least 9 million tons of grain a year

and is permitted to buy as much as 12 million metric tons. The Reagan

administration earlier waived the

ceiling for the current year and was

expected to wave the ceiling after a

consultation with the Russians

[On Tuesday, the president of-fered to raise next year's ceiling to

22 million tons, the Associated

Press reported from Washington.]
Mr. Malish said the meeting was

postponed from October to No-

rember at Soviet request, presum-

ably with the U.S. election in mind.

## **NOVA**

NOVA is a major, investorowned Canadian energy company operating through five business sectors: Gas Transportation & Marketing, Petroleum, Petrochemicals Manufacturing and Consulting & Research.

The Company reported progress at mid-year 1984 in the following respects:

 earnings per common share from normal operations are growing, compared to the first half of 1983:

· earnings projection calculations for common shares are encouraging for further growth, when a continuation of present commodity price levels is assumed;

long term consolidated debt has been greatly reduced and a worthwhile extraordinary gain recorded, increasing equity;

 debt is being converted in part to fixed rate term loans with some at low interest rates in foreign denominations.

Among developments in operations during the first half was the commencement of start-up of two worldscale petrochemical plants at Joffre, Alberta, both of which were completed ahead of schedule and under

-which brings site capacity to 2.7 billion pounds per year and make's NOVA the largest Canadian producer is contracted to buyers under cost-of-service, take-or-pay agreements. The linear lowdensity polyethylene pro-

budget These plants, managed by Novacor Chemicals Ltd. (100% owned), build on the position which NOVA has achieved in the petrochemical industry. Product from the new ethylene plant

> duced by the second new plant is destined mainly for export markets, where sales are subject to the full risk and reward opportunities offered by market conditions. NOVA's additional petrochemical activities include the production of polyvinyl chloride and methanol and involvement in the operation

> of natural gas liquids extraction, product pipelines and storage facilities. NOVA is a widely held public company, with shares trading actively on the Toronto, Montreal and Alberta stock

exchanges. Copies of annual and interim reports are available from the investor relations manager at the head office address below or from the Company's Paying Agent: Bank of Montreal, 9 Queen Victoria Street, London, England EC4N 4XN.

**ALEXIS** 

By Marguerite Yourcenar. Translated from French by Walter Kaiser. 105 pp. \$12.95.

Farrar Straus & Giroux, 19 Union Square, New York, N.Y. 10003.

Reviewed by Richard Howard

MARGUERITE YOURCENAR'S first fiction, written when she was 24, affords proof, in an uneven translation, of remarkable talents that have subsequently ripened into grandeur through a long life, a patient career. The Treatise of Vain Struggle," as it is subtitled in the French edition, concerns a young man's attempt to achieve self-awareness, an thereby self-acceptance, and thereby self-fulfillment. His discovery of sexual tastes that Alexis, an impoverished central European of noble stock, regards as unacceptably fixed on "beauty," decisively thwarts this 19th-century life, in which marriage and paternity fail to mend matters, and only art — musical composition, as it somewhat vaguely turns out succeeds in releasing Alexis from his bad faith.
The book is in the form of a confession, a long letter to the wife be is "abandoning," and i concludes on a devastated note of triumph: "With the utmost humility, I ask you now to forgive me, not for leaving you, but for having stayed so long."

Choosing for what she calls her "portrait of a voice" the tonality of the classical French moralists, the young author secured for herself, as ventriloquist, the possibility of a unity of tone exceptional in a beginner, and also the possibiity of an aphonistic glitter that certainly compensates for meagerness of incident.

Alexis tells his story with the mild fluency of the 18th-century maximister. Thereby he cuts down the blood-supply to the brain and ingeneral application of this cautionary tale. Given the stipulations of her chosen vocabu-lary and of the period taste to which she was appealing. Yourcenar could not use the word "homosexual," or any of the rest of that techni-cal vocabulary for "aberrations of the senses," as she observes they were called at the time: invert, pederast, pervert, uranist. And there is, for the reader, a certain mystification in all this "vain struggle" without any vivid apprehen-sion of what Alexis eventually surrenders to.

Even so, granting a specifically "pallid" tonality, much transformed in her later works of course, I should claim for this first tale of Yourcenar's a certain precision and an authentic power in her hero's admissions that derive from just the degree of ironic detachment so handsomely administered. She cites, helpfully, the influence of Rilke's "Notebooks of Malte Laurids Brigge" (1910), and indeed the recurrence of devices normally thought to be "poet-ic" is a pervasive character of this (and all subsequent) Yourcenar fictions. The alternation of narrative and aphorism is a much-

honored procedure here, and if we recall that "aphorism" is, etymologically, a wisdom broken, and that narrative is the ongoing, healing impulse of language to put things together, we observe how nicely this first brief recit fulfills the requirements of Yourcenar's imaginative genius, critical and lyric in close array.

Richard Howard is a poet, critic and translator. He wrote this review for The Washington

ONE of the best collections of deals to be published in Hoffman," by Martin Hoff-

man of London.

Each deal includes some "points to remember," which are almost sure to help a good player become a better one. The book is available for \$8.25, from the Bridge World, 39 West 94th Street, New York, N.Y. 10025.

slam failed. West, after some thought, produced a devastating lead: king was to retain the lead in

South should no doubt have

N.Y. 10025.

The author circulates widely on the international circuit, and many of the themes he presents are highly original. On the diagramed deal the opening lead proved to be devastating.

East opened four spades, and eventually ventured a greedy double of six hearts. This was a match-point event, and he was trying for an extra 50 points. He should have reasoned that he would have a layer taking the diamond ace, for it would not have been easy for at would not have been easy for a world ducking play. Instead, however, South played for a quick diamond ruff, and East over-ruffed to defeat the slam.

Everyone was ready to lavish praise on West for the brilliance of his lead, but he felt obliged to confess the truth her had assumed that his partner was making a Lightner double, asking for an unusual played a club immediately af-

soned that he would have a double, asking for an unusual

good score in any event if the lead. East was presumbably void in one of the minor suits. The purpose of the diamond the diamond king.

This proved to be a blind pened to hold the diamond ace Merrimac Coup, removing a and a club void. If East held a vital entry from the dummy. With any other lead, South would have had no trouble in drawing trumps and establish—

The West hand it cast nappened to hold the diamond ace and a club void. If East held a diamond void and the club ace, then any diamond lead would serve.

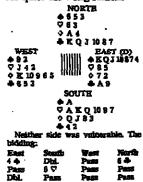

A brilliant lead indeed, but

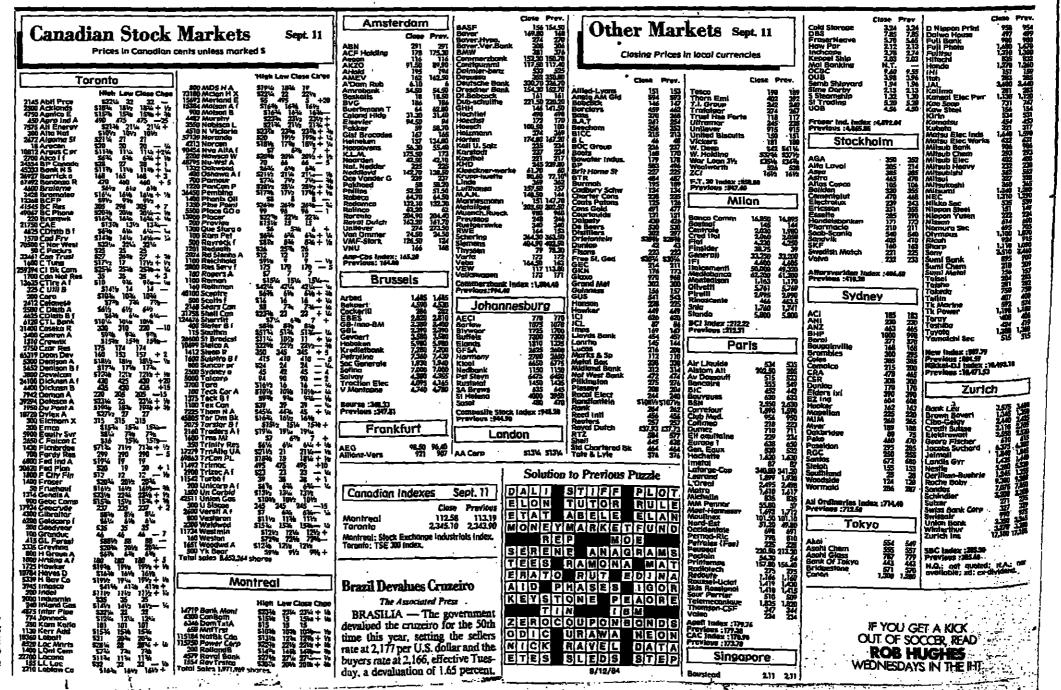

drawing trumps and establishing clubs, but now the contract for quite the wong reason.

Was in trouble.

A brilliant lead indeed, for quite the wong reason.

## Twins Down Royals, Regain Share of Top

fers RBI double that was lost in the fields by outfielders Darryl Motley took advantage of three walks and and Willie Wilson in the third in a hit batsman by Richard Dotson ming got the Minnesota Twins (13-13) to score the only run started Monday night on their way

Cardinals 3 Mets 2 to a 7-3 triumph over the Kansas

The victory enabled the Twins to move into a tie with Kansas City

BASEBALL ROUNDUP for first place in the American League West. Both teams have 73-

Mike Smithson (14-12) struck out six and walked two in going the distance for the ninth time. Two of the eight hits he allowed were homers by Steve Balboni, his 24th. th and Frank White, his loth, in the eighth.

The Twins held a 3-2 lead entering their half of the eighth, when the ballclub exploded off the Royals' starter and loser, Mark Gu-

"It was a big inning for us and we needed that more than the win." said Gary Gaetti, the Twins' third baseman. "It's so funny how baseball is. We've been hitting the ball but we haven't been able to hit it in

Orioles 3, Tigers 1 in Balamore, Wayne Gross and Eddie Marray homered to support the five-hit patching of Mike Flana-gan and help the Onoles snap Detroit's four-game winning streak with a 3-1 victory. Despite the loss, the Tigers remained 111/2 games ahead of Toronto in the American League East Kirk Gibson homered for Detroit.

Yankees 6, Blue Jays 2

In Toronto, Don Mattingly drove in four runs with a three-run homer and a double, and Butch Wynegar chipped in with a basesempty homer as New York handed the Blue Jays their fifth straight defeat, 6-2. The Yankees boosted their post-All Star Game record to 41-19, tops in the majors.

Browers 7, Red Sox 4 in Boston, Don Sutton moved into sixth place on the all-time strikeout list, and Doug Loman highlighted a five-run fourth inning with a two-run single, leading Milwankee to a 7-4 victory over Boston. Sutton (13-11) struck out four to surpass Ferguson Jenkins on the sourced through the air as performers in op-all-time list with 3,194. Jim Rice eras. and Wade Boggs homered for Bos-

Mariners 7, Rangers 3 In Seattle, Aivin Davis's two-run mning, and fim Beattie pitched an ight-hitter to guide the Mariners to a 7-3 victory over Texas.

walked with the bases loaded in the MINNEAPOLIS — Tim Teu-third imming to give the A's a 1-0 s RBI double that was lost in the victory over Chicago. Oakland

Cardinals 3, Mets 2 In the National League, Willie McGee doubled in two runs in the

seventh to break a 1-1 tie, and Dave LaPoint (10-10) allowed only four hits over eight innings as St. Louis defeated New York, 3-2. Bruce Sutter bailed the Cardinals out of a ninth-inning jam to record his 41st

Cubs 3, Plaines 2 In Chicago, Juan Samuel's

throwing error allowed Gary Woods to score from second base and cap a three-run seventh inning that gave the Cubs a 3-2 victory

In Pittsburgh, Jim Wohlford went 3-for-5 and drove in five runs to lead a 14-hit attack that lifted Montreal to an 8-5 triumph over Pittsburgh Dick Grapenthin (1-2) pitched 4% innings for his first major-league victory.

Braves 3. Astros 1 In Houston, Zane Smith, making his major-league debut, combined on a seven-hitter with Pete Falcone as Atlanta beat Houston, 3-1.

Wendell Tyler of the 49ers danced away from the Redskin cornerback Darrell Green and went on to score a touchdown in San Francisco's 37-31 National Football League triumph.

## 49ers Pay Debt to Redskins, 37-31

SAN FRANCISCO -- Joe Montana passed for 381 yards and two touchdowns and ran for another to tion, the two teams having met last lead the San Francisco 49ers to a year in the NFC championship 37-31 National Football League game, which Washington won, 24victory Monday night over the 21, on a fourth-quarter field goal.

Washington Redskins. "This is the most emotionally."

"Quite simply our Joe was better than their Joe," said Randy Cross, 49er guard who was comparing Montana with Joe Theismann, the Redskin quarterback.

"This is the most emotionally fense. He completed 16 of 28 passes packed game I've ever played in," for 211 yards and touchdowns of 5 said the 49er tight end Russ Fran-yards to Wendell Tyler and 15 cis. "It feels good to come out a yards to Dwight Clark.

down emotionally in the second half, we were able to move the

### **Angry Chargers Deal Muncie to Miami**

SAN DIEGO (LAT) - The San Diego Chargers, making no at-tempt to conceal their displeasure at Chuck Muncie's failure to make the team's flight to Seattle on Saturday, have traded the running back to the Miami Dolphins for a 1985 second-round draft choice.

Don Coryell, the Chargers' head coach, said blantly that he did not helieve Muncie's excuse for missing the plane. Muncie, who has had a history of disciplinary problems, said his car had been vandalized. He arrived in Seattle later on a commercial flight.

Don Shula, the Dolphins' coach, said he knew Muncie's back-ground, but added: "I'm willing to take a chance. He has to want to be here and live by the rules and regulations everyone else has to live by. If he wants to do that, I'm willing to give him the opportunity.

## Jelly Beans and Morality

By Russell Baker

NEW YORK — While Presi-dent Reagan tours the country racket, as it often is, politicians with his Pious Pete number, all about his passion for prayer and high-collar morality, the moral rot in America's candy stores proceeds at a disgusting pace.

Once, you could send your innocent babes off to the candy store to buy some chewing wax, a Baby Ruth bar, the new Batman comic book and a kazoo and be secure in the knowledge that good Mrs. Chesley behind the counter would bust their little knuckles if they tried to buy a copy of The Racing

Not anymore. Now good Mrs. Chesley has turned her shop into a gambling hall where she greets the traffic with a leer that says, "Hello, sucker," and has to keep kicking the kids out of her way so the lottery players can get their bets

Before the country went to the dogs, the cops would have run her in as a small-time operator in the numbers racket. Now, though, with so many states having muscled in on the rackets and legalized them so they can bilk the public, Mrs. Chesley's candy-store racket makes her, for all practical purposes, a

The reason Americans used to give for keeping gamblers off the street corner was that it damaged the moral tone of the neighborhood. There were - presumably still are - two moral arguments against gambling.

One was that it encouraged poor people to become poorer faster by foolishly challenging the laws of probability. The other was that it promoted the notion that poor people could make money without go-ing to work, just as rich people did. Thus it fostered the nonsensical de-lusion that the only difference be-

tween rich and poor was luck. Of course the gambling was in-tense, even though illegal. When the states started muscling in on the numbers and small-time horse-betting rackets, their excuse was that since people were going to gamble, illegally if necessary, the govern-ment might as well legalize it, rake in the money and at the same time reduce the unsavory social influence of organized crime.

When the same argument is recoil in horror. They are willing to turn Mrs. Chesley into a numbers writer, but not a heroin peddler.

For this I am grateful. It's bad enough the kids have to stand aside for gamblers; it would be worse if they had to jump over junkies.

If you infer that I don't like the government running a gambling den on every street corner, you infer correctly, though I find it hard to explain this distaste. Maybe it's because I was subjected in child-

hood to officially approved school

Whatever the reason, it is my conviction that gambling is a vice for rich people and poor saps and that a government that exploits its poor saps instead of trying to proiect them ought to be ashamed of itself. That's my idea of an immoral

This is not to say that the government ought to spend much time worrying about the morally right course. For that we have clergymen and philosophers. When politicians involve themselves in the matter, as they have in this year's political campaign, the result is likely to be an embarrassing quarrel about which office seeker God intends to

It ought to think twice before it involves Mrs. Chesley in the numbers racket. Thinking twice about this problem requires no great apti-tude for moral philosophy. Chil-dren frequent Mrs. Chesley's candy store. Surely the government knows that arousing human greed, promoting the belief that people can get rich without working and taking money from poor dumb saps are all shameful things to do, and doubly shameful when done in full view of children by people, like

## American Makes Good in Burgundy

Mew York Times Service
MEURSAULT, France — "I
am a French wine maker," the young man said. "I studied wine making in Burgundy, and I've worked in Burgundy nearly all of my short professional life.

It would not be an unusual remark for a Burgundian to make. But the tall, slim man who was standing in the wine cellars of Domaine Guy Roulot & Fils here is not Burgundian. He is Ted Lemon, a 26-year-old native of New York State. As far as the people of Meursault remember --and their memories are long -he is the first American to be a wine maker in this most rural and traditional of France's wine regions.

If the people of Meursault now show acceptance, and perhaps a bit of pride, they showed disbelief in December 1982 when the respected Roulot winery announced that it had hired an American. Tradition, after all. dictated that son should follow father as vintner. And Guy Roulot, who had just died at the age of 52, had left a son. Why didn't Jean-Marc Roulot put aside his plans for a career in the theater and continue his father's work? And if not the son, why not a relative or, at the least, a fellow villager? But the news probably surprised the New Yorker even

Lemon had not planned the path he took to a Burgundy wine estate from Bedford, New York, where his parents live. "Even while I studied here, I never dreamed I'd be working here," he

Lemon's first glimpse of wine making came while he was en-rolled at Phillips Academy, a prep school in Andover, Massachusetts, and went to Britanny with a group of other students to learn French. "One day in Mus-cadet," he recalled, "I heard a man talk about wine making being a blend of technology, tradi-tion and luck. It fascinated me." At Brown University, in Provi-

dence, Rhode Island, he majored in French literature and spent part of his junior year at the University of Dijon, in Burgundy. One of his instructors was Jean-Michel Lafond, who lectures to foreign students on the wine and married to tradition. Wineries are

Ted Lemon, a wine maker in Meursault, France.

In the fall of 1980 Lemon re-

turned to the University of Dijon for a year, this time to study wine

making. He also was apprenticed

at several wine estates, including

Domaine Dujac. Soon after earn-

ing his degree he accepted a job in Hollister, California, with Josh

Roulot, the third generation of his family to head its estate, was

dying. Although the estate had

attained a good reputation under his father and grandfather, it was Guy Roulot who had built up the

property, buying more vineyards within the Meursault village appellation. He had been one of the first vintners in Meursault to

make wine from the grapes of

food of the region. Lafond, favor- still passed on from father to son, ably impressed with his American often when the father is in his 60s student, then introduced him to and the son in his 40s." Jacques Seysses, owner of Do-

maine Dujac in Morey-St.-Denis.
"By the time I finished my six months in Dijon," Lemon said, "I had invitations from Jacques and a few other vintners I had met to do an apprenticeship." He laughed. 'I said no. Can you believe it?"

But back at Brown for his senior year, he realized how much he wanted to pursue wine making. He applied for a Samuel T. Arnold Fellowship, through which the International Business Machines Corp. was offering \$6,000 for a year of postgraduate study or travel abroad.

"My proposal was to go to Burgundy to learn wine making," he said. "They gave me the fellowship. I guess they like slightly risky projects."

With these individually labeled He chose Burgundy, he said, vineyards, such as Les Tessons and Les Luchets, and parcels of "because it's more open than the aristocratic society of Bordeaux. first-growth Meursault vineyards It's easier to make contacts here. -Les Charmes and Les Pernères Yet, in another sense, Burgundy is more closed because it's so -Guy Roulot had expanded the size of his estate to about 35 acres

During the last months of Guy Roulot's life his family began the search for a wine maker. One of the people they talked to was Seysses of Domaine Dujac. "Twe had many apprentices," he said, "but no one as bright and

matic Arts in Paris.

trustworthy as Ted. He has so many fine qualities. So when Geneviève Roulot, Guy's widow, asked me whom I would recommend, I said I had an excellent candidate but that there were two problems. He was only 25 years old and he was an American, 'Impossible," she said. I suggested she ask other people in Burgundy she

(14 hectares) as well its scope and reputation. His ion, Jean-Marc,

had been an apprentice at the Joseph Phelps Vineyards in the

Napa Valley of California and

returned to work at the estate

until he was in his early 20s. But

Jean-Marc's real love was the the-

ater, so he left to study at the

respected."
"We did," Jean-Marc Roulot recalled. "We asked Patrick Bize in Savigny-les-Beaune and others. I also called my friend Bruce Nevers at the Phelps winery in Napa, who knows Josh Jensen well. Everyone spoke highly of

The impossible, then, became possible, and in December 1982 Seysses called Lemon at Calera and said, "How would you like to make Menramit?

So he was hired, sight unseen by the family. "The fact that I spoke French helped," he said. "But I can't say I didn't have problems. In dealing with the field and cellar help I had to prove myself physically. I had to show I could prune as quickly, that I could drive a tractor and work as long and as hard as the local people. And to Mme. Roulot, who was so attached to Guy, I had to prove I could keep up the reputation of his wines.

"He has," said Dominique Lafon, who grew up on his family's wine estate in Meursault and is an enologist with a Burgundy wine brokerage, Le Serbet. 'People who don't follow tradition in Burgundy can be given a tough time. But Ted has worked hard. He's making high-quality wines. He's passed the test. He's accept-ed."

port his longtime companion and to establish an annual award for literary criticism. Capote died Aug. 25 at the age of 59. The will, probated Monday in New York, gives all his property to his companion John Paul Dumphy. The will, dated May 4, 1981, says that upon Dunphy's death the remainder of the Capote estate should be used to establish an annual prize for literary criticism to honor the memory of Newton Arvin, Arvin, an author, critic and teacher, died in 1963 after his career was blighted by a prosecution for possessing pornog-

About 5 percent of Jermaine Jackson's profits from the family's singing tour in the United States will be placed in a bank account until a lawsuit over payments to the group's accounting firm is settled, attorneys said. A Los Angeles Superior Court judge approved a set-tlement Monday after a meeting with lawyers representing Jermaine, the oldest brother of Mi- told they were sold out.

Truman Capote's will orders that his \$600,000 estate be used to support his longtime companion and Jermaine's attorney filed a \$2-million lawsuit Friday, alleging that the accounting company had fraudulently paid itself \$1.2 million for services during the tour.

> Mary Tyler Moore has joined the list of celebrities seeking treatment of alcohol problems at the Betty Ford Center near Palm Springs spokeswoman announced. She said the Emmy Award-winning actress entered the clinic last week because Miss Moore, who is a severe diabetic, was advised by her doctors to cease any alcoholic intake." Others recently treated at the clinic in-clude Elizabeth Taylor, Liza Mi-nelli, Robert Mitcham, Tony Carls, Peter Lawford and Johnny Cash

> Zubio Mehta returned to his narive India for the first time in 17 years Tuesday to conduct his New York Philharmonic Orchestra on tour. Thousands of Indians stood in lines in New Delhi for tickets to Wednesday's concert, only to be

ARTISTS AT WORK — Three students from Livomo demonstrating on Italian television Monday how they chiseled a stone to resemble a work by Amedeo Modigiani. The students, from left, Michele Ghelarducci, Francesco Ferrucci and Pietro Luridiana, say they faked the stone head and threw it into Livorno's Royal Canal. Three works attributed to Modigliani have been dredged from the canal.
